MANY IMPROVEMENTS ORDERED

The West End Comes in For Its Share.
Damage Done by the Flood to be Re-
paired at Once--A Special Election For
Bonds on Aug. 22--Another Inspection.

City council met in adjourned session
last night with all members present ex-
cept Peake and Purinton.

The meeting was called to order at
8:13, and the first business was the read-
ing of an ordinance to improve Lisbon
street by laying sidewalks. The rule
was suspended and the ordinance was
passed, all members voting aye. As
there were no petitions, new business
was taken up.

A resolution to construct a culvert on
Tanyard run from the north side of
Eighth street to Mill street was intro-
duced. Mr. Kent moved the rules be
suspended, and the resolution go on its
final passage. Horwell seconded the
motion. The passage of the resolution
meant the extension of the culvert to
the West End pottery, and Mr. Marshall
was of the opinion that council should
be judicious about spending such a vast
sum of money on a place where people
didn't even walk. As the cost of such
improvement would have to be assessed
against the railroad company and the
city, he was in favor of having an exact
estimate of the cost given before any-
thing was done. Mr. Kent explained
that the object of building the culvert
on down the run was in order that the
street might be widened. He also
stated that Mr. Marshall was mis-
taken when he said there was no
private property along the run as sev-
eral people owned land that would be
assessed, and as far as he could hear the
railroad company were anxious to have
the work done. He stated that it was
absolutely necessary to build the culvert
75 or 100 feet down the run to widen
the street, and if there was any danger
of the resolution not passing he would
be in favor of cutting it down to that
length. Mr. Marshall stated he had no
objection to having the road widened,
but it meant an additional cost of \$4,000
to build the culvert to Mill street.

"I am in favor of sewerage of the run
from the river to the Knowles pottery.
Council can not do it now, but it should
be done as soon as possible. I am not
in favor of taking up 400 feet of it until
all can be done. We have never been
able to do anything for Avondale street
residents because we have had no
money, and it is not justice to them that
we spend it on this idea," continued
Marshall. When he had finished Mr.
Ashbaugh said:

"There is more travel in 10 minutes
there than there is in 10 weeks on Avon-
dale street. The city's share of the im-
provement is \$3,200 and it was figured
in the \$8,000 bonds to be issued."

Mr. Kent withdrew his motion,
and a resolution to construct a culvert
over Tanyard run on Green lane was
passed under suspension of rules. Next
came a resolution to improve Minerva
street from Walnut to Avondale by con-
structing a culvert at Tanyard run and
making whatever improvements are
necessary, the probable cost to be \$1,250.
All members voted in the affirmative on
a suspension of the rules, and Minerva
street will soon be fixed. The resolution
to improve Eighth and Jethro streets
from the Horn switch to the West End
school house was laid over because the
improvement would cost \$4,016.80, of
which the city would have to stand \$610.
Mr. Marshall explained the matter by
saying that the city didn't have \$610 to
spend that way, and almost all the city
funds were running behind expenses.
Mr. Kent withdrew his motion for a
suspension of the rules, and the resolu-
tion will be left for Mr. Peake to talk
about.

Avondale street was next on the bills,
and as a number of residents were pres-
ent council went into a body of the
whole to hear what they had to say.
Robert Hill was the first man to speak,
and he said: "I understood I was
invited here, but not to make a speech.
I would like very much to see Avondale street
improved, as it is nothing more than a
death trap now. The gentleman from the
fourth ward says there is no travel
on the street. The only reason for this
is that it cannot be travelled. There is
not even a cowpath there. I think it
would be best to pave the street, as it
will be impossible to get anything to
hold in the roadway, except a brick
pavement. It is a disgrace to East Liv-
erpool and to council, to have a thorough-
fare like Avondale street."

"This is a wildcat move," said Miles

Bennett. "I am in favor of deferring the
paving the sidewalks to see if the road-
way cannot be paved, without any curb-
ing. I believe a large number would
sign the waiver if this idea was sug-
gested. The only reason the road is
fenced in, is because we couldn't agree
on what we wanted. Some of the peo-
ple on the street now have two assess-
ments due on the grading. Several peo-
ple on that street think that it will get
so bad, council will improve it, and they
will get out of paying anything. We
have people mean enough to do just
that thing. We can get sidewalks any-
time we want them, and if you leave
the roadway without paving, it will
only have to be fenced up again in ten
weeks." Willard Morris was of the
opinion that if council waited for five
years, Avondale street residents would
not agree.

Council then resumed executive ses-
sion, and Mr. Marshall moved the resolu-
tion be laid over one week to see if people
could get more waivers. Mr. Horwell
thought this was a foolish move, but
Robert Hill settled the matter by asking
the president if the waiver had to be
unanimous. When the president said
yes he replied: "We will never get it
as long as the sun shines." Mr. Mar-
shall withdrew his motion, and John
Ryan was given the contract and 90
days in which to complete it. The work
of lowering the sidewalks was also given
Ryan, and he will have 90 days in which
to finish the job. He explained as his
reason for asking so much time on Sixth
street he wanted to save the shade
trees, and to dig around the roots now
would kill them. Owing to an irregu-
larity in the passage of the ordinance
declaring an issue of bonds necessary it
was repassed last night, and the election
will be held August 22. A plat of land
in West End was submitted by Mr.
Kent. Mr. Pierce proposed to present
to the city provided they will extend
the culvert up the run 22 feet. By ex-
tending the culvert 40 feet a retaining
wall will not be necessary, and several
dollars will be saved to the city. After
a great deal of talk the
proposition was accepted. Clerk
Hanley was instructed to renew the note
for \$3,000 held by the First National bank.

F. H. Croxall was present, and asked
that council have the sewers empty
somewhere other than into his land on
Trentvale and Sheridan avenue. He
stated nine different water ways led
into the property, and during the last
hard rain the water was 10 feet deep.
Kent moved council view that part of
the city, and Mr. Marshall
said it would be wise to move that Mr.
Croxall fill up the ground. Mr. Kent's
motion was passed, and Mr. Stewart
started to set next Tuesday night as the
time, but Mr. Marshall informed him
that was circus night, and he said:
"That settles it." Council then ad-
journed.

HIS FAREWELL APPEARANCE.

Professor Wolf Will Disband His Famous
Orchestra.

The famous orchestra of Professor
Wolf will appear today for the last time,
the occasion being the picnic of the
Elks. The professor is interested in a
large brick manufacturing concern at
Bradford, Pa., and has decided to give
his entire attention to that business.
The orchestra having lost its leader will
play no more, and the many admirers of
good music will be compelled to seek it
elsewhere. It is said the orchestra will
not be reorganized under another leader.

COLD WATER ORATORY.

There Will Be Lots of It in Town on Fri-
day Afternoon.

The county Prohibition convention
will be held at Riverside park in West
End next Friday afternoon. A ticket
will be nominated. The party was sadly
split when the Nationalists left the Pitts-
burg convention, but some have returned
to their old allegiance and the more rad-
ical friends of silver have decided to vote
for Bryan. The Nationalists have not
yet held a convention. The gathering
on Friday will draw Prohibitionists
from all parts of the county.

A COLLISION

Caused a Suit in the Court of Squire
Manly.

Albert Savisky is the name of the
German vender of vegetables whose
wagon was broken by a collision with
a wagon of the ice company the other
day. He had his wagon repaired, and
this morning he entered a suit against
the company for \$3, the cost of repairs.
The suit was entered in the court of
Squire Manly.

No More Measles.

Joseph Chetwynd and family are mov-
ing back to Spring Grove camp ground
today, as their son David has recovered
from his attack of measles. There is
now not a case of measles at the ground,
and the scare has disappeared.

MR. NICKLE WANTS OUT

He Has Resigned His Position
on Board of Education.

IT WAS LAID ON THE LONG TABLE

Will be Acted Upon at the Next Meeting.
Finances Given Another Turn--Contracts
For Improving Buildings--An Unusually
Interesting Session.

The NEWS REVIEW stated last even-
ing that a member of the school board
would resign, and the NEWS REVIEW
was right. It was announced at the
meeting that Mr. Nickle had placed his
resignation in the hands of Clerk Norris,
and urged that it be accepted at once.
It was laid on the table last evening,
but will probably be accepted at the
next meeting.

At 8:30 the session was called to order
with Members McClain, Stevenson,
Vodrey, Nickle and President Mc-
Graw in their accustomed places.
Clerk Norris and the lady mem-
bers of the board were the absentees.
The room was lighted with electricity,
and if the meters do not fly off on a
taut and register double the amount
of the current consumed, the board will
again enter into negotiations with the
light company for the use of the incan-
descents. The atmosphere was stifling,
and the session was long drawn out.

The bids for the improvement of
Grant street school were received, and
the contracts awarded upon recom-
mendation of the committee who had the
matter in charge. The lowest bidders
are Arbutnot Bros., plumbing \$310;
Snowden Bros., painting \$14.50; Robert
Hall excavating, cementing and car-
pentering \$134. Upon motion it was de-
cided to let the contracts to the above
bidders. Bids for a small brick partici-
pation in the basement will be asked
later.

The question of again calling an elec-
tion for an issuance of bonds to liqui-
date the present indebtedness of the board
and to meet future expenses was argued
at length. It was suggested as a matter
of economy that the question be sub-
mitted to the voters at the time the
special election ordered by council will
be held. Mr. McClain wondered about
the legality of such a course, but was as-
sured by Mr. McGraw that it could be
taken with safety. The latter had con-
ferred with the president of council,
and he had declared that the act of hold-
ing the two elections on the same date
was perfectly legitimate. Mr. Stev-
enson then made a motion that the clerk
and president prepare a resolution out-
lining the bond question. Mr. Nickle,
to expedite matters, suggested that the
resolution be drawn up at once. Before
the motion was carried, it was changed
so as to embrace a few explana-
tory details. It is evident that the
amount of money required to cover all
exigencies will be from \$18,000 to \$20,000.
The Trentvale and Gardendale schools
are not adequate for the number of
pupils who attend there, and increased
facilities are necessary. Fences will also
have to be built. The matter of supply-
ing teachers with all paraphernalia
necessary to teach certain branches was
also discussed, and the opinion of the
board was that more than \$15,000 was
required to pay the debts and make nec-
essary improvements. The motion was
amended so that the clerk and president
compile an estimate of the money
needed, and report at a special meeting.
Mr. Nickle objected, and Mr. McClain
thought an arrangement could be made
with council, and the election postponed
for a few days, as it was plain the board
could not meet in time to make the nec-
essary arrangements. It was so de-
cided, but when the officers went to city
hall they found the room dark, and
council gone.

It was decided to open the schools for
the fall term on the second Monday in
September, and the examination of
teachers was discussed, but not acted
upon.

Then came the sensation. Mr. Nickle
stated that he wanted to make known a
little matter he had been considering
during the past three weeks. "I offer
my resignation as a member of the
board, and a paper to that effect is in
the hands of Secretary Norris," he said.
I preferred not to make the state-
ment myself, and would like to
have it acted upon at the next meet-
ing, if not now." The resignation will
be considered next week.

The late census developed a long argu-
ment, and it was thought the enumer-
ators had not given a full report. A
motion to have a recount without paying
the enumerators was defeated, and the
matter allowed to rest. If the count is
made again there must be no delay, as
the report must be made to the auditor
next week. After deciding to consider

the bond question on Friday evening the
board went home.

MR. NICKLE IS SILENT.

He Will Not Talk About His Resignation
From the Board.

The announcement that Mr. Nickle
had resigned from the board of educa-
tion caused no end of comment in the
city today, but no one seemed to know
what reason was assigned. Mr. Nickle
was seen by a reporter, but refused to
discuss the matter. He would not say
anything about it.

A KIND MAN.

He Not Only Refused to Prosecute but
Paid the Costs.

A man with a kind heart was in the
court of Squire Manly this morning,
and through his influence Ben Stanford
will escape the penitentiary.

Stanford was arrested yesterday for
stealing a set of harness from the stable
of Elmer Gamble in Wellsville. John
Allison was his partner in the affair,
but he escaped. When Stanford was
taken before the squire today he ex-
pected to have it all end in a serious
manner, but the charge was withdrawn.
Gamble had recovered his harness and
decided to let the boy go. He also paid
the costs. Squire Manly gave Stanford
an unusually severe lecture and then
released him. The charge against Alli-
son still stands.

MUCH AMUSEMENT

Occasioned by a Suit in the Court of
Squire Morley.

The counter charge of assault and
battery made against Frank Smith by
Mrs. Ellen Hester, came to trial in the
court of Squire Morley yesterday even-
ing. Smith struck Stephen Hester with
a club, but claimed the blow was acci-
dental. Mrs. Hester thought otherwise.
A great mass of amusing and conflict-
ing testimony was introduced, and the
squire had some difficulty in finding the
facts. At length he dismissed the case,
and asked the plaintiff to pay the costs.
The dialogue with Mrs. Hester and
Smith's father as principals, was the
most laughable ever heard in the squire's
court.

NO SPEECHES.

Mr. Bryan will not Address Columbiana
People Next Week.

It has been rumored on several oc-
casions that Hon. W. J. Bryan would stop
in this city when he returned west from
New York. A reporter sought Doctor
Ikert today, but he was not in town.
He was, however, found in Lisbon, and
stated by telephone that he did not
know whether Mr. Bryan would come
here. He has not yet been informed on
that point. Mr. Bryan will pass through
the county over the Fort Wayne line
next Monday, but will make no speeches.
Leading Democrats of Salem wanted him
to talk, but he declined.

MADE A MISTAKE.

Doctor Taylor Failed to Arrest His
Man.

Last evening when a gentleman from
Calcutta was standing at Sixth and
Market streets waiting for a friend he
was surprised. Doctor W. J. Taylor ap-
proached him, and exhibiting his pol-
ice surgeon's badge placed the
stranger under arrest, and told
him he must go to city hall. The man
asked his authority, and the doctor said
he would charge him with street loaf-
ing. Again the man protested, and call-
ing an acquaintance soon proved to the
doctor that he was a good man to re-
lease.

A REUNION.

High School Class of Eighty-Five Had a
Good Time.

The graduating class of '85 had a
pleasant evening in the parlors of W. E.
Wells on Fifth street. The memory of
Miss Huston and Superintendent Sur-
face was brought out by a num-
ber of excellent speeches, and the ban-
quet was all the class could ask. Mrs.
Florence Walters Halbird, of Chicago,
and Mrs. Lizzie Gaston Matree, of Woor-
ter, were the members now living out of
the city who were present.

MARRIED IN NEW YORK.

William Earp and Miss Elizabeth Claton
Were Made One.

William Earp and Elizabeth Claton,
who have lived here but a short time,
were married in New York, July 25. At
present they are staying with their
uncle, Harry Simpson, of McKinnon
addition. Mr. and Mrs. Earp will go to
housekeeping soon. There is a little
romance connected with the marriage.

Squire Rose is Home.

Squire J. N. Rose is back in the city.
He arrived from Indianapolis yesterday
and will remain here permanently. His
reason for returning to East Liverpool
was that the climate of Indianapolis did
not agree with him.

JUDGE SMITH NEEDED

Before the Case of J. H. Simms
Can Go Farther.

HE IS NOW IN FAR OFF MEXICO

So the Matter was Left Open, and will be
Closed When the October Term Opens.
County Officials have a Picnic--A Salem
Divorce.

Lisbon, Aug. 5. [Special.]—Owing to
the absence of Judge Smith in Mexico
the case of Jerre Simms against the
county commissioners came to a sudden
end in court today, and it will lie open
without argument until the beginning
of the October term.

While it is acknowledged by Simms
that the great amount of advertising for
which he is trying to recover judgment
was done without the order or authority
of the proper officials and solely upon
his own responsibility, it is claimed by
him that an understanding of some sort
existed with Judge Smith, the judge at
that time being the prosecuting attorney
of the county. This evidence is of some
importance to his cause, and will be
taken by Judge Robinson early in the
October term when a decision will be
given.

Judge Robinson closed the term of
court today, and all the county officials
went to the woods with their families,
and are enjoying a picnic.

Mrs. Carrie W. McIntire, of Salem,
asked the court to separate her from her
husband, Charles S. McIntire. They
were married seven years ago, and life
for her has not since then been a bed of
roses. Her maiden name was Carrie
Walton, and from the time of her mar-
riage until he deserted her a year ago,
her husband's actions made it almost im-
possible for her to live with him. He
frequently left home, she said, and
would leave her without food or cloth-
ing, and when he refused to work she
was compelled to go to her relatives
for the necessities of life. She says he
is indolent, and unfit to care for their
child, and wants the little one placed in
her keeping. She also asks reasonable
alimony.

RENDERED UNCONSCIOUS.

Patsy King Prevented a Collision but
Broke His Wheel.

Patsy King, a well known young
wheelman, attempted to prevent a col-
lision with a boy on Fifth street last
night. He saw that it was almost im-
possible to save the boy injury, but put
his foot on the front wheel and did his
best. The wheel came to a sudden stop,
and King went over the handle bars.
He was rendered unconscious, but was
soon made to feel much better by people
who saw the accident. His bicycle was
broken by the fall.

A SILVER CLUB.

The Bryan Men Will Organize on Mon-
day.

The untirred, or such of them who
find favor in free silver, will meet at
city hall next Monday evening for the
purpose of organizing a club. A large
number of leading Democrats will not be
there. They do not take kindly to the
Democratic doctrine, and will have
nothing to do with the silver men. An
effort is being made to have all the silver
men in town join the organization.

NO MEETING.

The Labor Day Committee Will Try It
Again This Evening.

The Labor day committee failed to
meet last night, as there was not a
quorum present. A meeting will be held
this evening, and the important ques-
tion to come up will be the selection of
grounds where the picnic will be held
this year. Many other details of minor
import will also be discussed and acted
upon.

An Elaborate Reception.

The reception tendered Rev. W. F.
McKee and bride, of Clarkson, last
night was an elaborate affair. One
hundred and fifty-seven persons sat
down to supper and made the occasion
an enjoyable one. The newly married
couple were presented with a purse con-
taining \$27, a rocking and study chair.

Will Hold Gospel Meetings.

Two gospel meetings under the lead-
ership of Evangelists Albright and Bux-
ton, will be held in East Palestine, Aug-
ust 15 and 16. A number of the local
salvationists, accompanied by the band,
will also be in attendance and assist in
making the meetings a success.

A Hot Day.

The mercury registered 93 degrees in
the shade this afternoon, and the atmos-
phere was decidedly uncomfortable. In
the sun life was almost unbearable.

When the president said yes he replied: "We will never get it as long as the sun shines." Mr. Marshall withdrew his motion, and John Ryan was given the contract and 90 days in which to complete it. The work of lowering the sidewalks was also given Ryan, and he will have 90 days in which to finish the job. He explained as his reason for asking so much time on Sixth street he wanted to save the shade trees, and to dig around the roots now would kill them. Owing to an irregularity in the passage of the ordinance declaring an issue of bonds necessary it was recessed last night, and the election will be held August 22. A plat of land in West End was submitted by Mr. Kent. Mr. Pierce proposes to present to the city provided they will extend the culvert up the run 22 feet. By extending the culvert 40 feet a retaining wall will not be necessary, and several dollars will be saved to the city. After a great deal of talk the proposition was accepted. Clerk Hanley was instructed to renew the note for \$5,000 held by the First National bank.

F. H. Croxall was present, and asked that council have the sewers empty somewhere other than into his land on Trentvale and Sheridan avenue. He stated nine different water ways led into the property, and during the last hard rain the water was 10 feet deep. Kent moved council view that part of the city, and Mr. Marshall said it would be wise to move that Mr. Croxall fill up the ground. Mr. Kent's motion was passed, and Mr. Stewart started to set next Tuesday night as the time, but Mr. Marshall informed him that was circus night, and he said: "That settles it." Council then adjourned.

HIS FAREWELL APPEARANCE.

Professor Wolf Will Disband His Famous Orchestra.

The famous orchestra of Professor Wolf will appear today for the last time, the occasion being the picnic of the Elks. The professor is interested in a large brick manufacturing concern at Bradford, Pa., and has decided to give his entire attention to that business. The orchestra having lost its leader will play no more, and the many admirers of good music will be compelled to seek it elsewhere. It is said the orchestra will not be reorganized under another leader.

COLD WATER ORATORY.

There Will Be Lots of It in Town on Friday Afternoon.

The county prohibition convention will be held at Riverside park in West End next Friday afternoon. A ticket will be nominated. The party was sadly split when the Nationalists left the Pittsburgh convention, but some have returned to their old allegiance and the more radical friends of alcohol have decided to vote for Bryan. The Nationalists have not yet held a convention. The gathering on Friday will draw prohibitionists from all parts of the county.

A COLLISION

Caused a Suit in the Court of Squire Manly.

Albert Savitsky is the name of the German vendor of vegetables whose wagon was broken by a collision with a wagon of the ice company the other day. He had his wagon repaired, and this morning he entered a suit against the company for \$3, the cost of repairs. The suit was entered in the court of Squire Manly.

No More Measles.

Joseph Chetwynd and family are moving back to Spring Grove camp ground today, as their son David has recovered from his attack of measles. There is now not a case of measles at the ground, and the scare has disappeared.

MR. NICKLE WANTS OUT

He Has Resigned His Position on Board of Education.

IT WAS LAID ON THE LONG TABLE

Will be Acted Upon at the Next Meeting. Finances Given Another Turn—Contracts For Improving Buildings—An Unusually Interesting Session.

The NEWS REVIEW stated last evening that a member of the school board would resign, and the NEWS REVIEW was right. It was announced at the meeting that Mr. Nickle had placed his resignation in the hands of Clerk Norris, and urged that it be accepted at once. It was laid on the table last evening, but will probably be accepted at the next meeting.

At 8:30 the session was called to order with Members McClain, Stevenson, Vodrey, Nickle and President McGraw in their accustomed places. Clerk Norris and the lady members of the board were the absentees. The room was lighted with electricity, and if the meters do not fly off on a tangent and register double the amount of the current consumed, the board will again enter into negotiations with the light company for the use of the incandescents. The atmosphere was stifling, and the session was long drawn out.

The bids for the improvement of Grant street school were received, and the contracts awarded upon recommendation of the committee who had the matter in charge. The lowest bidders are Arbutnot Bros., plumbing \$310; Snowden Bros., painting \$14.50; Robert Hall excavating, cementing and carpentering \$134. Upon motion it was decided to let the contracts to the above bidders. Bids for a small brick partition in the basement will be asked later.

The question of again calling an election for an issuance of bonds to liquidate the present indebtedness of the board and to meet future expenses was argued at length. It was suggested as a matter of economy that the question be submitted to the voters at the time the special election ordered by council will be held. Mr. McClain wondered about the legality of such a course, but was assured by Mr. McGraw that it could be taken with safety. The latter had conferred with the president of council, and he had declared that the act of holding the two elections on the same date was perfectly legitimate. Mr. Stevenson then made a motion that the clerk and president prepare a resolution outlining the bond question. Mr. Nickle, to expedite matters, suggested that the resolution be drawn up at once. Before the motion was carried, it was changed so as to embrace a few explanatory details. It is evident that the amount of money required to cover all exigencies will be from \$18,000 to \$20,000. The Trentvale and Gardendale schools are not adequate for the number of pupils who attend there, and increased facilities are necessary. Fences will also have to be built. The matter of supplying teachers with all paraphernalia necessary to teach certain branches was also discussed, and the opinion of the board was that more than \$15,000 was required to pay the debts and make necessary improvements. The motion was amended so that the clerk and president compile an estimate of the money needed, and report at a special meeting. Mr. Nickle objected, and Mr. McClain thought an arrangement could be made with council, and the election postponed for a few days, as it was plain the board could not meet in time to make the necessary arrangements. It was so decided, but when the officers went to city hall they found the room dark, and council gone.

It was decided to open the schools for the fall term on the second Monday in September, and the examination of teachers was discussed, but not acted upon. Then came the sensation. Mr. Nickle stated that he wanted to make known a little matter he had been considering during the past three weeks. "I offer my resignation as a member of the board, and a paper to that effect is in the hands of Secretary Norris," he said. I preferred not to make the statement myself, and would like to have it acted upon at the next meeting, if not now." The resignation will be considered next week.

The late census developed a long argument, and it was thought the enumerators had not given a full report. A motion to have a recount without paying the enumerators was defeated, and the matter allowed to rest. If the count is made again there must be no delay, as the report must be made to the auditor next week. After deciding to consider

the bond question on Friday evening the board went home.

MR. NICKLE IS SILENT.

He Will Not Talk About His Resignation From the Board.

The announcement that Mr. Nickle had resigned from the board of education caused no end of comment in the city today, but no one seemed to know what reason was assigned. Mr. Nickle was seen by a reporter, but refused to discuss the matter. He would not say anything about it.

A KIND MAN.

He Not Only Refused to Prosecute but Paid the Costs.

A man with a kind heart was in the court of Squire Manly this morning, and through his influence Ben Stanford will escape the penitentiary.

Stanford was arrested yesterday for stealing a set of harness from the stable of Elmer Gamble in Wellsville. John Allison was his partner in the affair, but he escaped. When Stanford was taken before the squire today he expected to have it all end in a serious manner, but the charge was withdrawn. Gamble had recovered his harness and decided to let the boy go. He also paid the costs. Squire Manly gave Stanford an unusually severe lecture and then released him. The charge against Allison still stands.

MUCH AMUSEMENT

Occasioned by a Suit in the Court of Squire Morley.

The counter charge of assault and battery made against Frank Smith by Mrs. Ellen Hester, came to trial in the court of Squire Morley yesterday evening. Smith struck Stephen Hester with a club, but claimed the blow was accidental. Mrs. Hester thought otherwise. A great mass of amusing and conflicting testimony was introduced, and the squire had some difficulty in finding the facts. At length he dismissed the case, and asked the plaintiff to pay the costs. The dialogue with Mrs. Hester and Smith's father as principals, was the most laughable ever heard in the squire's court.

NO SPEECHES.

Mr. Bryan will not Address Columbiana People Next Week.

It has been rumored on several occasions that Hon. W. J. Bryan would stop in this city when he returned west from New York. A reporter sought Doctor Ikert today, but he was not in town. He was, however, found in Lisbon, and stated by telephone that he did not know whether Mr. Bryan would come here. He has not yet been informed on that point. Mr. Bryan will pass through the county over the Fort Wayne line next Monday, but will make no speeches. Leading Democrats of Salem wanted him to talk, but he declined.

MADE A MISTAKE.

Doctor Taylor Failed to Arrest His Man.

Last evening when a gentleman from Calcutta was standing at Sixth and Market streets waiting for a friend he was surprised. Doctor W. J. Taylor approached him, and exhibiting his police surgeon's badge placed the stranger under arrest, and told him he must go to city hall. The man asked his authority, and the doctor said he would charge him with street loafing. Again the man protested, and calling an acquaintance soon proved to the doctor that he was a good man to release.

A REUNION.

High School Class of Eighty-Five Had a Good Time.

The graduating class of '85 had a pleasant evening in the parlors of W. E. Wells on Fifth street. The memory of Miss Huston and Superintendent Surface was brought out by a number of excellent speeches, and the banquet was all the class could ask. Mrs. Florence Walters Halbird, of Chicago, and Mrs. Lizzie Gaston Matree, of Wooster, were the members now living out of the city who were present.

MARRIED IN NEW YORK.

William Earp and Miss Elizabeth Claton Were Made One.

William Earp and Elizabeth Claton, who have lived here but a short time, were married in New York, July 25. At present they are staying with their uncle, Harry Simpson, of McKinnon addition. Mr. and Mrs. Earp will go to housekeeping soon. There is a little romance connected with the marriage.

Squire Rose is Home.

Squire J. N. Rose is back in the city. He arrived from Indianapolis yesterday and will remain here permanently. His reason for returning to East Liverpool was that the climate of Indianapolis did not agree with him.

JUDGE SMITH NEEDED

Before the Case of J. H. Simms Can Go Farther.

HE IS NOW IN FAR OFF MEXICO

So the Matter was Left Open, and will be Closed When the October Term Opens. County Officials have a Picnic—A Salem Divorce.

LISBON, Aug. 5.—[Special.]—Owing to the absence of Judge Smith in Mexico the case of Jerre Simms against the county commissioners came to a sudden end in court today, and it will lie open without argument until the beginning of the October term.

While it is acknowledged by Simms that the great amount of advertising for which he is trying to recover judgment was done without the order or authority of the proper officials and solely upon his own responsibility, it is claimed by him that an understanding of some sort existed with Judge Smith, the judge at that time being the prosecuting attorney of the county. This evidence is of some importance to his cause, and will be taken by Judge Robinson early in the October term when a decision will be given.

Judge Robinson closed the term of court today, and all the county officials went to the woods with their families, and are enjoying a picnic.

Mrs. Carrie W. McIntire, of Salem, asked the court to separate her from her husband, Charles S. McIntire. They were married seven years ago, and life for her has not since then been a bed of roses. Her maiden name was Carrie Walton, and from the time of her marriage until he deserted her a year ago, her husband's actions made it almost impossible for her to live with him. He frequently left home, she said, and would leave her without food or clothing, and when he refused to work she was compelled to go to her relatives for the necessities of life. She says he is indolent, and unfit to care for their child, and wants the little one placed in her keeping. She also asks reasonable alimony.

RENDERED UNCONSCIOUS.

Patsy King Prevented a Collision but Broke His Wheel.

Patsy King, a well known young wheelman, attempted to prevent a collision with a boy on Fifth street last night. He saw that it was almost impossible to save the boy injury, but put his foot on the front wheel and did his best. The wheel came to a sudden stop, and King went over the handle bars. He was rendered unconscious, but was soon made to feel much better by people who saw the accident. His bicycle was broken by the fall.

A SILVER CLUB.

The Bryan Men Will Organize on Monday.

The unterrified, or such of them who find favor in free silver, will meet at city hall next Monday evening for the purpose of organizing a club. A large number of leading Democrats will not be there. They do not take kindly to the Democratic doctrine, and will have nothing to do with the silver men. An effort is being made to have all the silver men in town join the organization.

NO MEETING.

The Labor Day Committee Will Try It Again This Evening.

The Labor day committee failed to meet last night, as there was not a quorum present. A meeting will be held this evening, and the important question to come up will be the selection of grounds where the picnic will be held this year. Many other details of minor import will also be discussed and acted upon.

An Elaborate Reception.

The reception tendered Rev. W. F. McKee and bride, of Clarkson, last night was an elaborate affair. One hundred and fifty-seven persons sat down to supper and made the occasion an enjoyable one. The newly married couple were presented with a purse containing \$27, a rocking and study chair.

Will Hold Gospel Meetings.

Two gospel meetings under the leadership of Evangelists Albright and Buxton, will be held in East Palestine, August 15 and 16. A number of the local salvationists, accompanied by the band, will also be in attendance and assist in making the meetings a success.

A Hot Day.

The mercury registered 93 degrees in the shade this afternoon, and the atmosphere was decidedly uncomfortable. In the sun life was almost unbearable.

It is almost time for Mr. Coxy to come over into Columbiana county, and see what can be done in the way of a Democratic-Populist fusion.

WHAT the country needs is a tariff sufficient to pay expenses, and at once protect the workingman and capitalist from the ravages of European competition.

MR. BRYAN is coming east next week, and will attend the surprise party in Madison Square garden. There will be another surprise party not so much to his liking next November.

JULY is the first month of the fiscal year, and the deficit on the government's books last Friday is a little matter of \$12,800,000. Yet the Democrats have the supreme impudence to ask another term of power.

TIMES are good in England, according to the labor department of the government board of trade. Over 40,000 wage workers have recently received increased wages. Americans who hear of the advance will find some excuse for it in the fact that the Wilson-Gorman tariff is still in existence.

THE POOR MAN'S MONEY.

The average supporter of the Chicago platform delights in declaring that silver is the poor man's money, and he never spoke a truer truth in all his life. He likes the expression. It sounds well, and is rapidly becoming as popular as the "demonization of silver" or the "crime of '73." Yes, silver is the poor man's money, and the poor men of the silver countries are the poorest men on the face of the earth. They bear the burden, and for years have been sinking under the heavy load. Let the wages paid in Mexico be compared with the wages of the United States, and see the difference in favor of the American. There is a world of information for the man in search of knowledge if he will but look for the remuneration of his own craft in those countries on a silver basis. He will not think of voting for the free and unlimited coinage of silver when he discovers that mechanics of his own line are paid but little more than one-half of what he receives. Labor in the South American republics is at what seems to be the lowest notch, and there is no prospect of improvement as long as the financial standard is where it is at present. That condition would soon become general in this country with laws enforced to meet the demands of the Democratic declaration. It would not require many months for the result of the foolish policy to make itself known. Our country, having the poor man's money, would necessarily sink to the level of those countries already on the decline.

JOSEPH BROS.

GOLD OR SILVER?

An Interesting Letter on the Great Money Question.

DEAR MONEY AND CHEAP MONEY.

A Full Explanation of Matter Plainly and Simply Expressed--In Silver Countries Money is Dear; in Gold Countries It is Cheap, as Loans.

Gordon & York, a Cleveland firm, have been sending to their correspondents a very interesting letter, written by Mr. George D. Boulton of Chicago to Mr. C. Morgan, postmaster of Barrie, N. D. The letter has appeared in several Chicago papers and is as follows:

"CHICAGO, July 10, 1896.

"Charles Morgan, Barrie, N. D.:
"My DEAR MORGAN--Your brother showed me a letter a few days ago in which you asked for some reading matter on the gold question. As I feel strongly on the subject, I may as well give you the benefit of my crude ideas, not having any printed matter at hand.
"There are a good many leading points on this question which I think can be briefly expressed and which appeal strongly to my side of the argument.

"One of the most urgent motives of the silver party is that they want cheap money. By that I suppose they mean money they can borrow cheaply or earn cheaply. Now, the cheapest money in the world is in the strongest gold country--viz., England. The dearest money in the world is in the silver countries. For example, money in London today is 3 per cent per annum, while money in Mexico, China, Spain, India, and in fact in all silver countries of the world, commands a loaning value of from 12 per cent upward. In the other gold countries of Europe, while money is not so low as in England, the rate varies from 3 to 5 per cent to the borrower.

Decrease Circulation.

"Should we depart from a gold basis Europe would undoubtedly send in all the currency securities--that is, securities that may be paid in anything but gold--to us, requiring an export of either gold or its equivalent in trade. If it takes gold it takes that much of our money circulation. If it takes merchandise, it takes that at a largely reduced value. The consequence would be that shrinkage in money circulation would run into very large figures, while we could not put out silver or certificates sufficient to take their place for many months or years, so that during the next three or four years, instead of the circulation increasing as silverites hope, it would materially decrease. After a lapse of time, no doubt, by putting their printing presses and mints to work, they could largely inflate our currency with new issues.

"Currency depletion means low prices for labor and everything else. Currency at a fair rate per capita means prosperity. Currency inflation means danger again.

"Going back into history we find Europe using largely silver and gold together. With the expansion of trade one country after another found by sad experience their inability to keep the two values on a parity. England was the first to depart from this custom, then Germany, then France, Holland, Belgium, Italy, Austria and, last of all, Chile. It was from no prejudice on their part, but from the requirements of trade, that this course was taken.
"We can only have one standard, be it of gold, silver or anything else, and the experience of the world has been that gold was the best. Again, where the country is most sound on its currency question you will find the highest civilization. Where money is debased, or is other than the recognized standard of the world, civilization is on a much lower plane. We can find at the present time no silver country in the world, I think I might say without exception, that is in a prosperous condition, whose government securities command respect and full prices in the markets of the world.

"A Mexican Example.
"To this statement our friends from the west will probably take exception, and cite as an example of a silver country being prosperous and in good condition the case of Mexico; but they will find it difficult to support their assertions. The writer had occasion last month to buy in the city of Mexico \$50,000 of bonds issued by the Mexican

government. These bonds were bought at the rate of 48 cents on the dollar in silver, the net cost to the purchaser being \$24,170 in Mexican silver. As the money to pay for these bonds came from this country, the amount of American funds used in the purchase of \$50,000 Mexican government securities was \$13,012.11, or about 26 cents on the dollar. Now it seems impossible for any country to be in a sound and prosperous condition whose securities are so heavily discounted as in the above case.

"Looking at the matter from an intellectual standpoint, we find arrayed on the gold side the high intelligence of England, France, Germany, Italy, Holland, Belgium, Norway, Sweden and Canada. On the other side we find an inferior grade of intelligence, an absence of public schools, and a lower plane of morality, as in Spain, Portugal, South American States, Mexico, China, etc. On which side shall we array ourselves?

"Of course you understand it is not the intention of the party in power, or the gold party to, disturb the present silver circulation of the country, which is now \$500,000,000. There is no desire to demonetize that.

"On the other hand, the whole contention is that all of our circulation shall be kept on a parity with the gold standard, and this \$500,000,000, instead of being reduced in value, will remain equal to gold anywhere.

"Borrowers throughout the country will have to recognize the fact that undoubtedly they will have to pay more for loans with silver ruling than they now do with gold.

"If we can avoid a serious panic during such a crisis we may regard ourselves as fortunate.

"Under the most favorable circumstances we must look for great disturbances in value of all classes, a disorganization of labor and a hardening of money and general financial trouble, which will be felt by all classes, whether the farmer, the laborer, the mechanic or capitalist.

"Capital can always take care of itself and will feel the trouble the least, as it can largely unload its burden onto others.

"Now, legislation in favor of silver, when it comes, must be at least from nine months to a year off, and at the best it can not do anything which will speedily restore our circulation to its normal amount per capita, as it takes time to coin silver, the capacity of our mints at present being only about \$5,000,000 a month or \$60,000,000 a year.

"The following can almost be taken as axioms:
"No silver country is prosperous.
"No silver country has a stable and firm government.
"In no silver country is general labor well paid.

"No silver country has its government securities at par.
"No silver country has good public school facilities.

"This letter has rather rambled on into a lengthy epistle, but it may interest you, and I hope it will help you to convert one or two of your friends to the right way of thinking. Sincerely yours,
GEORGE D. BOULTON."

New Silver Paper in Chicago.

CHICAGO, Aug. 5.--W. R. Hoar of the San Francisco Examiner and New York Journal will be the financial genius of the Chicago Daily Enquirer, which is to be the newspaper to startle the cause of the silverites, upholding Aug. 10.

NO SYMPATHY STRIKE

Leaders Say It Wouldn't Aid Cleveland Strikers.

ANOTHER EXCHANGE OF BULLETS.

Strikers Stoned a Non-Union Boarding-house and Refused to Halt When Ordered--A Lively Fusillade of Bullets Followed--Both Sides Armed.

CLEVELAND, Aug. 5.--Shooting by soldiers and rioters marked the opening of another day in the vicinity of the Brown Hoisting works.

Two men stopped in front of Mrs. Lind's boardinghouse, a few squares from the Brown Hoisting works, where a man named Gettner, who is employed at the works boards. The two men yelled for the "scab" to come out and then they began to throw stones at the house.

Presently one of the men fired at the door, the bullet passing through the panel and entering the house.

The noise attracted the militia and a detachment of Company A men were ordered to the scene on the double quick. As the soldiers turned a neighboring corner, the two men started to run. The lieutenant in charge shouted: "Halt."

The pursued men paid no attention to the order and the soldiers began firing at them. They returned the fire and for a few moments there was a lively fusillade.

One of the men suddenly made a cry and was heard to groan. A moment later, however, both had disappeared in the darkness.

The affair caused the utmost excitement in the neighborhood for a time. The bullets struck several houses. Two went clean through the side of a grocery store.

The soldiers and others believe that the two men had planned to blow up Mrs. Lind's house.

About 150 non-union men went to work at the Brown works this morning under guard of a large force of militia and police. An enormous crowd of strikers and their sympathizers were present, but no trouble occurred.

On every street within a radius of nearly a mile of the plant, both soldiers and locked-out men patrolled the sidewalks. Many of the soldiers were doubly armed, wearing belts and revolvers as well as carrying guns. A number of the strikers also carried guns.

At a meeting of the executive committee of the locked-out Brown Hoisting works men this morning it was decided unanimously to ask the Central Labor union at its meeting this evening to declare a sympathetic strike. If this is done it will call out probably from 15,000 to 20,000 men.

It is not likely that a sympathetic strike will be ordered. Eight of the leaders of the Central Labor union, all representing different trades, were interviewed, and all but two of them expressed themselves as opposed to such a strike, declaring that it would be unwise and could not benefit the Brown strikers. The question will probably be decided at the meeting of the Central Labor union tonight.

LI WORE HIS JACKET.

The Chinese Envoy Visits the English Commons in Full Dress.

LONDON, Aug. 5.--Li Hung Chang, the Chinese envoy, dressed in a yellow robe and accompanied by a number of attendants, has visited the house of commons. He was escorted to a seat beneath the gallery and listened to a debate on the Scotch agricultural rates bill. The parliamentary secretary for the foreign office, Mr. George N. Curzon, explained the leading features of the house to the distinguished traveler, who appeared to be much interested.

Later Li Hung Chang engaged in an animated conversation with the secretary of state for the colonies, Mr. Joseph Chamberlain.

Li Hung Chang had an audience lasting three-quarters of an hour with the Marquis of Salisbury at the foreign office. The Chinese statesman was borne into the audience room on a chair, in order to avoid the fatigue of mounting the stairs. He wore a yellow jacket, the peacock feather and a claret colored skirt.

A SENSIBLE JUDGE.

He Refused Naturalization to Italians Ignorant of the Constitution.

WASHINGTON, Aug. 5.--In refusing to grant naturalization papers to two young Italians, Judge Cole of the District supreme court, held that no one who is in ignorance of the constitution of the United States is competent or entitled to become a citizen.

The young men explained that they had come to this country before reaching their majority and that they have ever since resided here, but when questioned

by the judge they confessed that they do not understand the constitution, and were even doubtful as to the form of this government.

Judge Cole thereupon decided them to be ineligible to citizenship and refused to naturalize them, on the ground that they could not swear to support something they do not understand.

USING THE TORCH.

Revenge Being Meted Out to Non-Union Contractors at Berea.

BEREA, O., Aug. 5.--This place is in a turmoil. At 8 o'clock in the morning a cry of fire was raised. The residence of Richard Dodd, on Prospect street, was on fire and it was burned to the ground, nothing being saved. A wire screen was torn from the window, oil poured on an unoccupied bed near it and lighted. Dodd's son heard the noise, smelled the smoke and aroused his father barely in time to get out of the house.

Two children were overcome with smoke. The family consists of seven children. The residence of James Woodcock, a neighbor, was also saturated with oil, but was not lighted. Dodd is a contractor at the quarries, also Woodcock, and both employ non-union men. They were asked to employ union men, but were unable to do so they said, as they had no work for them. There is talk of lynching if the culprits who are using dynamite and the torch are apprehended.

Fish and Game Center of Ohio.

COLUMBUS, Aug. 5.--Senator George Fallow of Athens, president of the state fish and game commission, and L. H. Reuttering of Athens, the recently appointed game warden, have gone to London, where a plat of 11 acres has just been purchased for ponds and hatcheries. The bass and perch breeding ponds at Waverly and Chagrin Falls are to be abandoned, and also the pheasant hatchery at Van Wert, and hereafter all the hatching and breeding will be done at London.

State Printing Bids.

COLUMBUS, Aug. 5.--Bids for the state printing for the ensuing two years have been opened by the printing commission. The contract was not awarded, but from the tabulation it is evident that the executive department work will go to Myers Bros. of Columbus; the general assembly bills to the Westbote company of Columbus, the law printing to J. L. Tronger & Co. of Columbus and the rest to the Lanning Printing company of Norwalk.

Clew That May Hang Some One.

PORTSMOUTH, O., Aug. 5.--The arrest of William Williams, charged with attempting to steal Farmer Arnold's wheat crop, has revived interest in the mysterious disappearance of Joseph Van Duran, alias John Howard, several years ago. The woman who accompanied Williams was Howard's sister, and the authorities say they secured a clew from her that tends to show that Van Duran was murdered and also insinuates the identity of his murderers.

New Prison Garb Likely.

COLUMBUS, Aug. 5.--A change may be made in the prison garb by the penitentiary officials. The plan is to dress the new arrivals in gray, giving them the privilege of earning a blue suit for good behavior. On repeated violation of rules the convict will be forced to wear black and white stripes, the present dress.

Epidemic of Diphtheria.

WILLIAMSPORT, O., Aug. 5.--A dozen children are sick with diphtheria. Eunice Timmons, daughter of Mayor A. L. Timmons, died on July 30. Charles O'Connor and Tommie Phebus, sons of Abe O'Connor and Rezin W. Phebus, respectively, have died. No new cases have developed for three days.

President Barber's Sister Dead.

AKRON, O., Aug. 5.--Miss Kate Barber, aged 40, a sister of O. C. Barber, president of the Diamond Match company, has died at her home here. For a number of years her mind had been unbalanced, and she had recently been brought here from the Newberg hospital at Cleveland.

A Failure in Columbus.

COLUMBUS, Aug. 5.--Dundon & Bergin, lumber dealers, have assigned to Henry J. Caren; bond, \$200,000; assets, estimated, \$200,000; liabilities not known, but supposed to be less than assets. Cause, failure of A. C. Ady some months ago.

Diphtheria Caused by Filth.

JACKSON, O., Aug. 5.--Hon. C. O. Probst, secretary of the state board of health, investigated the diphtheria scare at Coalton. He reported 33 cases and advised that the town be thoroughly cleaned, as its sanitary condition is bad.

A Successful Expedition.

TROMSØ, Norway, Aug. 5.--The arctic expedition headed by Sir Martin Conway and his nephew has accomplished the first crossing of Spitzbergen from east to west. In the central portion of the islands was found a vast ice plateau.

A RUNNING MATE FOR WATSON.

Georgia Populists Want Bryan Withdrawn--Combine With Prohibitionists.

ATLANTA, Aug. 5.--Statements made by the leaders of the People's party who are assembled here for the state convention tomorrow show that Senator John's interview, which the southern Populists consider a repudiation of themselves, has completely changed the situation. The People's party leaders now here say that the state convention will endorse the St. Louis platform and Watson's nomination, but will call for the nomination of a state Populist in place of Bryan. Hon. Charles McGregg, business manager of Tom Watson's People's party paper, said:

"I am convinced that the national committee will be called upon to put out a straight Populist candidate for president, and as the understanding seems to be that Norton has the first call for the nomination, I suppose the ticket will be Norton and Watson."

The nomination of a full ticket for statehouse officers, to be headed, in all probability, by Rev. J. B. Gamrell, a prohibitionist, seems to be assured. This combination of Populist and Prohibition strength would be formidable, and the Democratic managers do not conceal the fact that it would make the fight a close one.

FUSION CERTAIN IN KANSAS.

The Election in Alabama Decided the Matter.

ABILENE, KAN., Aug. 5.--The news that the Democrats carried Alabama by a sweeping majority has strengthened the position of advocates of Sewall electors. By many of the delegates to the Populist state convention, which meets here today, it is accepted as significant that the Populists of the south, ever with Republican fusion, are not capable of turning down the Democratic electors. This feeling may spread and have much to do in deciding the question of fusion with the Democrats.

It is agreed that the first work of the convention will be the appointment of a committee to confer on the question of fusion with a like committee from the Democratic convention.

Next to the question of electors, the most troublesome problem to be solved is that of giving representation on the state ticket to free silver Republicans. The only Republican mentioned in place is E. C. Little of Abilene, who aspires to be congressman-at-large. He is supported by a strong following of free silver Republicans.

A Hutchinson special says: The Democratic convention decided to give the Populists the full state ticket, if they would endorse the Democratic presidential electors.

SEWALL WILL BE PRESENT.

Announcement of Arrangements for the Notification in New York.

NEW YORK, Aug. 5.--It has been announced at the Democratic headquarters in the Bartholdi hotel that Mr. Sewall will be present at the meeting in Madison Square Garden on the 12th, when Wm. J. Bryan will be formally notified of his nomination. There had been some doubt as to whether Mr. Sewall would be present, but W. P. St. John said that Mr. Sewall would be notified at the same time as Mr. Bryan. The arrangement for the meeting is not as yet fully complete nor has the list of speakers been made out.

Admission to the Madison Square Garden on that occasion will be free. There will be no tickets required for admission, but there will be reserved up to 7,45 o'clock 6,500 seats, 2,500 seats of the floor, 200 for the press and the platform for the committee.

Of the 9,000 seats reserved Tammany will control 5,000, also 40 of the 69 arena boxes. The rest of the tickets will be distributed among the Young Democracy, the Brooklyn Democracy and the silver Republicans and a few to visitors from neighboring states.

GOLD DEMOCRAT MEETING.

Mr. Bynum Says Thirty States Will Be Represented.

INDIANAPOLIS, Aug. 5.--It has been definitely settled that the meeting of the national committee of the gold standard Democrats here Friday shall be held in the assembly rooms of the Commercial club.

Ex-Congressman W. D. Bynum, the Indiana member of the executive committee, has received consent by wire from all the members of the committee that the change from one of the large hotels to the Commercial club be made. The members of the committee are on gaging rooms at the hotels. The managers of the movement believe that the Democratic party of the country will be represented by men whose opinions will be regarded as valuable. Mr. Bynum announced that the original estimate of thirty states still held good, and that this representation would be here to attend the independent Democratic gold meeting.

Wisconsin Republican Convention.

MILWAUKEE, Aug. 5.--The Republican state convention is meeting in the city today, and the warmest contest for

the governorship in Wisconsin in many years is on. The candidate have the following delegates pledged: LaFollette, 271; Scofield, 233; Elliott, 41; Baensch, 70; Bradford, 49; Estabrook, 10; contested, 7; total, 780.

No Fusion in Indiana.

INDIANAPOLIS, Aug. 5.--It can be announced authoritatively that the present Democratic state committee will not consider any proposition from the Populist state committee of 13 to divide electors in this state. Inquiry at both Populist and Democratic headquarters show that there is no probability of the two parties coming together in state or national affairs.

Michigan Republican Convention.

GRAND RAPIDS, Mich., Aug. 5.--The Republican state convention is being held today. For governor the fight is between Colonel A. T. Bliss of Saginaw and Mayor Pingree of Detroit, with James O'Donnell of Jackson, Congressman Arkin of Flint, A. O. Wheeler of Manistee and W. F. Conant of Monroe trailing in the race.

To Oppose Speaker Reed.

ALFRED, Me., Aug. 5.--The Democratic convention of the First congressional district nominated E. W. Staples to oppose Speaker Reed and endorsed Bryan and Sewall.

IN MEMORY OF FIELD.

Suitable Action Proposed by the Marquis of Tweeddale.

LONDON, Aug. 5.--The Marquis of Tweeddale, as chairman of the Anglo-American and Eastern Telegraph companies, has requested The Associated Press to forward the following dispatch to the principal newspapers of the United States:

"An influential committee is about to be formed to inaugurate an international memorial to commemorate the interception and extension of submarine telegraphy connected with the names of Cyrus W. Field, Sir James Anderson and Sir John Pender. In view of the great international importance of the subject you may think the desirability of establishing such a memorial suitable to be dealt with in your leader columns."

Concessions to Americans.

ST. PETERSBURG, Aug. 5.--A dispatch to the Novoe Vremya from Vladivostok announces that Korea has conceded to a syndicate of Americans the right to construct a railroad from Seoul, the capital, to Chemulpo, the main port and harbor. The Americans, in addition, have the right to work the minerals along the line of this road.

Peary's Ship Caught in the Ice.

GLOUCESTER, MASS., Aug. 5.--Prof. R. S. Tate of Cornell university, who started with Lieutenant Peary on an Arctic geological expedition in the steamer Hope, has written to his family in this city that the steamer is hung up in the floe of ice off the Greenland coast.

Forty Miners Entombed.

SWANSEA, Wales, Aug. 5.--A despatch from Neath, seven miles from here, announces that forty miners have been entombed in the Bryncoch pit near that place by an explosion.

A Murderer Suicides.

SEATTLE, Wash., Aug. 5.--Lawrence Cummings, who so cruelly murdered his wife, Elizabeth Cummings, and tried to murder his daughter on the night of June 13, 1896, has committed suicide in the county jail.

Democratic Victory Confirmed.

BIRMINGHAM, Ala., Aug. 5.--Further returns received from the election in this state show a complete Democratic victory by almost 50,000.

Aunt Kruger.

Mrs. Kruger, the wife of President Kruger of the Transvaal, who is an extremely homely woman, does nearly all her own housework, cooking meals, making her own bed, and always takes a hand in the family washing. When her husband has "state guests" to dinner the good lady will trust the task of waiting on the table to no one, and, donning a white apron, she performs the office of butler. Her husband has a private fortune of \$25,000,000, but it's "Aunt" Kruger's boast that they live on their "coffee money"--a perquisite of \$2,000 a year allowed them by the government.

It is almost time for Mr. Coxey to come over into Columbiana county, and see what can be done in the way of a Democratic-Populist fusion.

WHAT the country needs is a tariff sufficient to pay expenses, and at once protect the workingman and capitalist from the ravages of European competition.

MR. BRYAN is coming east next week, and will attend the surprise party in Madison Square garden. There will be another surprise party not so much to his liking next November.

JULY is the first month of the fiscal year, and the deficit on the government's books last Friday is a little matter of \$12,800,000. Yet the Democrats have the supreme impudence to ask another term of power.

TIMES are good in England, according to the labor department of the government board of trade. Over 40,000 wage workers have recently received increased wages. Americans who hear of the advance will find some excuse for it in the fact that the Wilson-Gorman tariff is still in existence.

THE POOR MAN'S MONEY.

The average supporter of the Chicago platform delights in declaring that silver is the poor man's money, and he never spoke a truer truth in all his life. He likes the expression. It sounds well, and is rapidly becoming as popular as the "demonetization of silver" or the "crime of '73." Yes, silver is the poor man's money, and the poor men of the silver countries are the poorest men on the face of the earth. They bear the burden, and for years have been sinking under the heavy load. Let the wages paid in Mexico be compared with the wages of the United States, and see the difference in favor of the American. There is a world of information for the man in search of knowledge if he will but look for the remuneration of his own craft in those countries on a silver basis. He will not think of voting for the free and unlimited coinage of silver when he discovers that mechanics of his own line are paid but little more than one-half of what he receives. Labor in the South American republics is at what seems to be the lowest notch, and there is no prospect of improvement as long as the financial standard is where it is at present. That condition would soon become general in this country with laws enforced to meet the demands of the Democratic declaration. It would not require many months for the result of the foolish policy to make itself known. Our country, having the poor man's money, would necessarily sink to the level of those countries already on the decline.

JOSEPH BROS.

GOLD OR SILVER?

An Interesting Letter on the Great Money Question.

DEAR MONEY AND CHEAP MONEY.

A Full Explanation of Matter Plainly and Simply Expressed--In Silver Countries Money Is Dear; in Gold Countries It Is Cheap, as Loans.

Gordon & York, a Cleveland firm, have been sending to their correspondents a very interesting letter, written by Mr. George D. Boulton of Chicago to Mr. C. Morgan, postmaster of Barrie, N. D. The letter has appeared in several Chicago papers and is as follows:

"CHICAGO, July 10, 1896.
"Charles Morgan, Barrie, N. D.:
"MY DEAR MORGAN--Your brother showed me a letter a few days ago in which you asked for some reading matter on the gold question. As I feel strongly on the subject, I may as well give you the benefit of my crude ideas, not having any printed matter at hand.
"There are a good many leading points on this question which I think can be briefly expressed and which appeal strongly to my side of the argument.

"One of the most urgent motives of the silver party is that they want cheap money. By that I suppose they mean money they can borrow cheaply or earn cheaply. Now, the cheapest money in the world is in the strongest gold country--viz., England. The dearest money in the world is in the silver countries. For example, money in London today is 2 per cent per annum, while money in Mexico, China, Spain, India, and in fact in all silver countries of the world, commands a loaning value of from 12 per cent upward. In the other gold countries of Europe, while money is not so low as in England, the rate varies from 3 to 5 per cent to the borrower.
"I may cite as a good example of the two currencies two states adjoining one another in South America--one British Guiana, a gold country, with money at 4 to 6 per cent per annum; the other Venezuela, with like soil and climatic conditions, a silver country, where interest rates at 10 to 12 per cent annum.

"Should we depart from a gold basis Europe would undoubtedly sink in all the currency securities--that is, securities that may be paid in anything but gold--to us, requiring an export of either gold or its equivalent in trade. If it takes gold it takes that much of our money circulation. If it takes merchandise, it takes that at a largely reduced value. The consequence would be that shrinkage in money circulation would run into very large figures, while we could not put out silver or certificates sufficient to take their place for many months or years, so that during the next three or four years, instead of the circulation increasing as silverites hope, it would materially decrease. After a lapse of time, no doubt, by putting their printing presses and mints to work, they could largely inflate our currency with new issues.
"Currency depletion means low prices for labor and everything else. Currency at a fair rate per capita means prosperity. Currency inflation means danger again.
"Going back into history we find Europe using largely silver and gold together. With the expansion of trade one country after another found by sad experience their inability to keep the two values on a parity. England was the first to depart from this custom, then Germany, then France, Holland, Belgium, Italy, Austria and last of all, Chile. It was from no prejudice on their part, but from the requirements of trade, that this course was taken.
"We can only have one standard, be it of gold, silver or anything else, and the experience of the world has been that gold was the best. Again, where the country is most sound on its currency question you will find the highest civilization. Where money is debased, or is other than the recognized standard of the world, civilization is on a much lower plane. We can find at the present time no silver country in the world, I think I might say without exception, that is in a prosperous condition, whose government securities command respect and full prices in the markets of the world.

"A Mexican Example.
"To this statement our friends from the west will probably take exception, and cite as an example of a silver country being prosperous and in good condition the case of Mexico, but they will find it difficult to support their assertions. The writer had occasion last month to buy in the city of Mexico \$50,000 of bonds issued by the Mexican government. These bonds were bought at the rate of 48 cents on the dollar in silver, the net cost to the purchaser being \$24,170 in Mexican silver. As the money to pay for these bonds came from this country, the amount of American funds used in the purchase of \$50,000 Mexican government securities was \$13,012 11, or about 26 cents on the dollar. Now it seems impossible for any country to be in a sound and prosperous condition whose securities are so heavily discounted as in the above case.
"Looking at the matter from an intellectual standpoint, we find arrayed on the gold side the high intelligence of England, France, Germany, Italy, Holland, Belgium, Norway, Sweden and Canada. On the other side we find an inferior grade of intelligence, an absence of public schools, and a lower plane of morality, as in Spain, Portugal, South American States, Mexico, China, etc. On which side shall we array ourselves?
"Of course you understand it is not the intention of the party in power, or the gold party, to disturb the present silver circulation of the country, which is now \$500,000,000. There is no desire to demonetize that.
"On the other hand, the whole contention is that all of our circulation shall be kept on a parity with the gold standard, and this \$500,000, instead of being reduced in value, will remain equal to gold anywhere.
"Pay More For Loans.
"Borrowers throughout the country will have to recognize the fact that undoubtedly they will have to pay more for loans with silver ruling than they now do with gold.
"If we can avoid a serious panic during such a crisis we may regard ourselves as fortunate.
"Under the most favorable circumstances we must look for great disturbances in value of all classes, a disorganization of labor and a hardening of money and general financial trouble, which will be felt by all classes, whether the farmer, the laborer, the mechanic or capitalist.
"Capital can always take care of itself and will feel the trouble the least, as it can largely unload its burden onto others.
"Now, legislation in favor of silver, when it comes, must be at least from nine months to a year off, and at the best it can not do anything which will speedily restore our circulation to its normal amount per capita, as it takes time to coin silver, the capacity of our mints at present being only about \$5,000,000 a month or \$60,000,000 a year.
"The following can almost be taken as axioms:
"No silver country is prosperous.
"No silver country has a stable and firm government.
"In no silver country is general labor well paid.
"No silver country has its government securities at par.
"No silver country has good public school facilities.
"This letter has rather rambled on into a lengthy epistle, but it may interest you, and I hope it will help you to convert one or two of your friends to the right way of thinking. Sincerely yours,
GEORGE D. BOULTON.
New Silver Paper in Chicago.
CHICAGO, Aug. 5.--W. R. Hoar of the San Francisco Examiner and New York Journal will be the financial genius of the Chicago Daily Enquirer, which is to be the newspaper to uphold the cause of the silverites, starting Aug. 10.

NO SYMPATHY STRIKE

Leaders Say It Wouldn't Aid Cleveland Strikers.

ANOTHER EXCHANGE OF BULLETS.

Strikers Stoned a Non-Union Boarding-house and Refused to Halt When Ordered--A Lively Fusillade of Bullets Followed--Both Sides Armed.

CLEVELAND, Aug. 5.--Shooting by soldiers and rioters marked the opening of another day in the vicinity of the Brown Hoisting works.

Two men stopped in front of Mrs. Lind's boardinghouse, a few squares from the Brown Hoisting works, where a man named Gettner, who is employed at the works boards. The two men yelled for the "scab" to come out and then they began to throw stones at the house.

Presently one of the men fired at the door, the bullet passing through the panel and entering the house.

The noise attracted the militia and a detachment of Company A men were ordered to the scene on the double quick. As the soldiers turned a neighboring corner, the two men started to run. The lieutenant in charge shouted: "Halt."

The pursued men paid no attention to the order and the soldiers began firing at them. They returned the fire and for a few moments there was a lively fusillade.

One of the men suddenly made a cry and was heard to groan. A moment later, however, both had disappeared in the darkness.

The affair caused the utmost excitement in the neighborhood for a time. The bullets struck several houses. Two went clean through the side of a grocery store.

The soldiers and others believe that the two men had planned to blow up Mrs. Lind's house.

About 150 non-union men went to work at the Brown works this morning under guard of a large force of militia and police. An enormous crowd of strikers and their sympathizers were present, but no trouble occurred.

On every street within a radius of nearly a mile of the plant, both soldiers and lockedout men patrolled the sidewalks. Many of the soldiers were doubly armed, wearing belts and revolvers as well as carrying guns. A number of the strikers also carried guns.

At a meeting of the executive committee of the lockedout Brown Hoisting works men this morning it was decided unanimously to ask the Central Labor union at its meeting this evening to declare a sympathetic strike. If this is done it will call out probably from 15,000 to 20,000 men.

It is not likely that a sympathetic strike will be ordered. Eight of the leaders of the Central Labor union, all representing different trades, were interviewed, and all but two of them expressed themselves as opposed to such a strike, declaring that it would be unwise and could not benefit the Brown strikers. The question will probably be decided at the meeting of the Central Labor union tonight.

LI WORE HIS JACKET.

The Chinese Envoy Visits the English Commons in Full Dress.

LONDON, Aug. 5.--Li Hung Chang, the Chinese envoy, dressed in a yellow robe and accompanied by a number of attendants, has visited the house of commons. He was escorted to a seat beneath the gallery and listened to a debate on the Scotch agricultural rates bill. The parliamentary secretary for the foreign office, Mr. George N. Curzon, explained the leading features of the house to the distinguished traveler, who appeared to be much interested.

Later Li Hung Chang engaged in an animated conversation with the secretary of state for the colonies, Mr. Joseph Chamberlain.

Li Hung Chang had an audience lasting three-quarters of an hour with the Marquis of Salisbury at the foreign office. The Chinese statesman was borne into the audience room on a chair, in order to avoid the fatigue of mounting the stairs. He wore a yellow jacket, the peacock feather and a claret colored skirt.

A SENSIBLE JUDGE.

He Refused Naturalization to Italians Ignorant of the Constitution.

WASHINGTON, Aug. 5.--In refusing to grant naturalization papers to two young Italians, Judge Cole of the District supreme court, held that no one who is in ignorance of the constitution of the United States is competent or entitled to become admitted to citizenship. The young men explained that they had come to this country before reaching their majority and that they have ever since resided here, but when questioned

by the judge they confessed that they do not understand the constitution, and were even doubtful as to the form of this government.

Judge Cole thereupon decided them to be ineligible to citizenship and refused to naturalize them, on the ground that they could not swear to support something they do not understand.

USING THE TORCH.

Revenge Being Meted Out to Non-Union Contractors at Berea.

Berea, O., Aug. 5.--This place is in a turmoil. At 8 o'clock in the morning a cry of fire was raised. The residence of Richard Dodd, on Prospect street, was on fire and it was burned to the ground, nothing being saved. A wire screen was torn from the window, oil poured on an unoccupied bed near it and lighted. Dodd's son heard the noise, smelled the smoke and aroused his father barely in time to get out of the house.

Two children were overcome with smoke. The family consists of seven children. The residence of James Woodcock, a neighbor, was also saturated with oil, but was not lighted. Dodd is a contractor at the quarries, also Woodcock, and both employ non-union men. They were asked to employ union men, but were unable to do so they said, as they had no work for them. There is talk of lynching if the culprits who are using dynamite and the torch are apprehended.

Fish and Game Center of Ohio.

COLUMBUS, Aug. 5.--Senator George Fallson of Athens, president of the state fish and game commission, and L. H. Reutinger of Athens, the recently appointed game wardens, have gone to London, where a plot of 11 acres has just been purchased for ponds and hatcheries. The bass and perch breeding ponds at Waverly and Chagrin Falls are to be abandoned, and also the pheasant hatchery at Van Wert, and hereafter all the hatching and breeding will be done at London.

State Printing Bids.

COLUMBUS, Aug. 5.--Bids for the state printing for the ensuing two years have been opened by the printing commission. The contract was not awarded, but from the tabulation it is evident that the executive department work will go to Myers Bros. of Columbus; the general assembly bills to the West-bote company of Columbus, the law printing to J. L. Tronger & Co. of Columbus and the rest to the Laning Printing company of Norwalk.

Clew That May Hang Some One.

PORTSMOUTH, O., Aug. 5.--The arrest of William Williams, charged with attempting to steal Farmer Arnold's wheat crop, has revived interest in the mysterious disappearance of Joseph Van Duran, alias John Howard, several years ago. The woman who accompanied Williams was Howard's sister, and the authorities say they secured a clew from her that tends to show that Van Duran was murdered and also insinuates the identity of his murderers.

New Prison Garb Likely.

COLUMBUS, Aug. 5.--A change may be made in the prison garb by the penitentiary officials. The plan is to dress the new arrivals in gray, giving them the privilege of earning a blue suit for good behavior. On repeated violation of rules the convict will be forced to wear black and white stripes, the present dress.

Epidemic of Diphtheria.

WILLIAMSPORT, O., Aug. 5.--A dozen children are sick with diphtheria. Eunice Timmons, daughter of Mayor A. L. Timmons, died on July 30. Charles O'Connor and Tommie Phebus, sons of Abe O'Connor and Rezin W. Phebus, respectively, have died. No new cases have developed for three days.

President Barber's Sister Dead.

AKRON, O., Aug. 5.--Miss Kate Barber, aged 40, a sister of O. C. Barber, president of the Diamond Match company, has died at her home here. For a number of years her mind had been unbalanced, and she had recently been brought here from the Newberg hospital at Cleveland.

A Failure in Columbus.

COLUMBUS, Aug. 5.--Dundon & Bergin, lumber dealers, have assigned to Henry J. Caren; bond, \$800,000; assets, estimated, \$200,000; liabilities, not known, but supposed to be less than assets. Cause, failure of A. C. Ady some months ago.

Diphtheria Caused by Filth.

JACKSON, O., Aug. 5.--Hon. O. C. Probst, secretary of the state board of health, investigated the diphtheria scare at Coalton. He reported 83 cases and advised that the town be thoroughly cleaned, as its sanitary condition is bad.

A Successful Expedition.

FUSION CERTAIN IN KANSAS.

The Election in Alabama Decided the Matter.

ABILENE, Kan., Aug. 5.--The news that the Democrats carried Alabama by a sweeping majority has strengthened the position of advocates of Sewall electors. By many of the delegates to the Populist state convention, which meets here today, it is accepted as significant that the Populists of the south, ever with Republican fusion, are not capable of turning down the Democratic electors. Next to the question of electors, the most troublesome problem to be solved is that of giving representation on the state ticket to free silver Republicans. The only Republican mentioned for place is E. C. Little of Abilene, who aspires to be congressman-at-large. He is supported by a strong following of free silver Republicans.

A Hutchinson special says: The Democratic convention decided to give the Populists the full state ticket, if they would endorse the Democratic presidential electors.

SEWALL WILL BE PRESENT.

Announcement of Arrangements for the Notification in New York.

NEW YORK, Aug. 5.--It has been announced at the Democratic headquarters in the Bartholdi hotel that Mr. Sewall will be present at the meeting in Madison Square Garden on the 12th, when Wm. J. Bryan will be formally notified of his nomination. There had been some doubt as to whether Mr. Sewall would be present, but W. P. St. John said that Mr. Sewall would be notified at the same time as Mr. Bryan. The arrangements for the meeting are not as yet fully complete, nor has the list of speakers been made out.

Admission to the Madison Square Garden on that occasion will be free. There will be no tickets required for admission, but there will be reserved up to 7:45 o'clock 6,500 seats, 2,500 seats of the floor, 200 for the press and the platform for the committee.

Of the 9,000 seats reserved Tammany will control 5,000, also 40 of the 60 arena boxes. The rest of the tickets will be distributed among the Young Democracy, the Brooklyn Democracy and the silver Republicans and a few to visitors from neighboring states.

GOLD DEMOCRAT MEETING.

Mr. Bynum Says Thirty States Will Be Represented.

INDIANAPOLIS, Aug. 5.--It has been definitely settled that the meeting of the national committee of the gold standard Democrats here Friday shall be held in the assembly rooms of the Commercial club.

Ex-Congressman W. D. Bynum, the Indiana member of the executive committee, has received consent by wire from all the members of the committee that the change from one of the large hotels to the club rooms shall be made. The members of the committee are en gaging rooms at the hotels. The managers of the movement believe that the Democratic party of the country will be represented by men whose opinions will be regarded as valuable. Mr. Bynum announced that the original estimate of thirty states still held good, and that this representation would be here to attend the independent Democratic gold meeting.

Wisconsin Republican Convention.

MILWAUKEE, Aug. 5.--The Republican state convention is meeting in the city today, and the warmest contest for

the governorship in Wisconsin in many years is on. The candidate have the following delegates pledged: La Follette, 371; Scofield, 233; Eliot, 41; Baensch, 70; Bradford, 49; Estabrook, 10; contested, 7; total, 780.

No Fusion in Indiana.

INDIANAPOLIS, Aug. 5.--It can be announced authoritatively that the present Democratic state committee will not consider any proposition from the Populist state committee of 13 to divide electors in this state. Inquiry at both Populist and Democratic headquarters show that there is no probability of the two parties coming together in state or national affairs.

Michigan Republican Convention.

GRAND RAPIDS, Mich., Aug. 5.--The Republican state convention is being held today. For governor the fight is between Colonel A. T. Bliss of Saginaw and Mayor Pingree of Detroit, with James O'Donnell of Jackson, Congressman Atkin of Flint, A. O. Wheeler of Manistee and W. F. Conant of Monroe trailing in the race.

To Oppose Speaker Reed.

ALFRED, Me., Aug. 5.--The Democratic convention of the First congressional district nominated E. W. Staples to oppose Speaker Reed and endorsed Bryan and Sewall.

IN MEMORY OF FIELD.

Suitable Action Proposed by the Marquis of Tweeddale.

LONDON, Aug. 5.--The Marquis of Tweeddale, as chairman of the Anglo-American and Eastern Telegraph companies, has requested The Associated Press to forward the following dispatch to the principal newspapers of the United States:

"An influential committee is about to be formed to inaugurate an international memorial to commemorate the inception and extension of submarine telegraphy connected with the names of Cyrus W. Field, Sir James Anderson and Sir John Pender. In view of the great international importance of the subject you may think the desirability of establishing such a memorial suitable to be dealt with in your leader columns."

Concessions to Americans.

ST. PETERSBURG, Aug. 5.--A dispatch to the Novoe Vremya from Vladivostok announces that Korea has conceded to a syndicate of Americans the right to construct a railroad from Seoul, the capital, to Chennulpo, the main port and harbor. The Americans, in addition, have the right to work the minerals along the line of this road.

Peary's Ship Caught in the Ice.

GLOUCESTER, Mass., Aug. 5.--Prof. R. S. Tarr of Cornell university, who started with Lieutenant Peary on an Arctic geological expedition in the steamer Hope, has written to his family in this city that the steamer is hung up in the floe of ice off the Greenland coast.

Forty Miners Entombed.

SWANSEA, Wales, Aug. 5.--A despatch from Neath, seven miles from here, announces that forty miners have been entombed in the Bryncoch pit near that place by an explosion.

A Murderer Suicides.

SEATTLE, Wash., Aug. 5.--Lawrence Cummings, who so cruelly murdered his wife, Elizabeth Cummings, and tried to murder his daughter on the night of June 12, 1896, has committed suicide in the county jail.

Democratic Victory Confirmed.

BIRMINGHAM, Ala., Aug. 5.--Further returns received from the election in this state show a complete Democratic victory by almost 50,000.

Aunt Kruger.

Mrs. Kruger, the wife of President Kruger of the Transvaal, who is an extremely homely woman, does nearly all her own housework, cooking meals, making her own bed, and always takes a hand in the family washing. When her husband has "state guests" to dinner the good lady will trust the task of waiting on the table to no one, and, donning a white apron, she performs the office of butler. Her husband has a private fortune of \$25,000,000, but it's "Aunt" Kruger's boast that they live on their "coffee money"--a perquisite of \$2,000 a year allowed them by the government.

His Proper Sphere.

Author--Mary, I've made a mistake in my calling; I'm not an author, but a born chemist.

Author's Wife--What makes you think that, Horace?

Author--Well, every book I write becomes a drug in the market.--London Answers.

His Little Scheme.

"How is this, Florence? Here is a guitar in place of your mandolin?"

"Yes, mother. Paul Davis took my mandolin in mistake for his guitar. He will return it tonight when he comes for his guitar."--Detroit Free Press.

THE POLITICAL FIGHT.

Cheering News Received at Both Headquarters.

CHAIRMAN JONES' INTERVIEW.

He Says He Was Misquoted in His Statement Regarding Southern Populists. The Great Demand for Literature Continues—Political Happenings.

WASHINGTON, Aug. 5.—The Democratic congressional committee headquarters have become a rendezvous for Democratic leaders until the national headquarters are established. Chairman Jones was at work there early on his mail. Later Chairman Faulkner of the congressional committee was joined by Senator Gorman, Senator Stewart, Ex-Governor Black, president of Democratic clubs; Chairman Chilton of the West Virginia state committee, and Representative Capehart of West Virginia. The talk was on general politics, although Senators Gorman and Faulkner went into secret session on certain lines of campaign work. Mr. Faulkner and his associates expressed much satisfaction with the results in Alabama and at Brunswick, Md., where the Democrats carried the town, they assert, on the silver question.

Chairman Chilton of the West Virginia committee reports that silver clubs are springing up throughout the state.

At Republican congressional headquarters half a million pieces of literature have been sent out within 24 hours. This is a quarter of a million are small "pamphlets" giving McKinley's views on money.

The committee continues to be deluged with requests for literature. One of Acting Chairman Aspley's letters from Indiana said: "The silver craze is dying out and we must go at 'em with tariff literature."

Women are busy cleaning up Womley's hotel, which aided to the impression that the old hotelier will become the national Democratic headquarters. Chairman Jones of the Democratic national committee corrected certain misapprehensions which have arisen from published interviews with him within the last day or two.

"I did not say that Mr. Bryan would not accept the Populist nomination," said Mr. Jones, "for I have no authority to say that. I did not say that as a general rule the southern Populists were not a creditable class. On the contrary I said that most of them were patriotic men who were working for a cause; that they were Populists because they had believed they could promote their cause best through a new party; and that now they would support Bryan because it was shown that their patriotic objects could be attained only through his election. This is what I said of the southern Populists as a rule. As an exception, I spoke of the class who were not creditable. I said there were some who were Populists merely for their personal advancement; some who had become Populists through selfish and not patriotic motives. I spoke of these as the exceptional class who would not support Mr. Bryan. I said that as a rule the Populists in the south would follow the patriotic course and support Bryan, that there were some who for selfish motives would not do so, but would prefer to have McKinley elected."

Chairman Faulkner received a request which he regarded as significant. It came from a leading retail dealer at Huntington, W. Va., asking where he could buy 500 Bryan cabinet photographs, which, he said, were the strongest kind of campaign document. The photographs were to be distributed with pamphlets.

Representative Pearson of the Ashville (N. C.) district was at Republican headquarters and said indignation had been aroused among southern Populists by Chairman Jones' interview concerning them.

Senator Jones, chairman of the national Democratic committee, has left the city for New York to consult with the leaders who are making arrangements for the Bryan and Sewall meeting.

BRYAN WRITES TO CANTON.

Pleased With the Organization of a Silver Club.

LINCOLN, Aug. 5.—In response to the recent telegram from Canton, O., telling of the organization of the silver forces in the home city of Governor McKinley, Mr. Bryan today sent the following:

My dear Sir:—I am in receipt of your message conveying greetings from the members of your club and beg to assure them of my hearty appreciation of their support.

The fact that those of your citizens who believe the United States is strong enough to have a policy of its own are willing to stand up for their rights is a source of great gratification and great personal worth. Whenever a great issue arises the American people always prove their independence and moral courage, characteristics without which self-government is impossible. It gratifies me to know that the silver sentiment in its growth is disregarding party lines.

In regard to the invitation extended to him to speak in Canton, Mr. Bryan said that he did not know he would do so, but that if he did it would be an informal talk from the car platform.

PEACE IN NEW YORK.

The Republican National and State Committees Make Terms.

NEW YORK, Aug. 5.—F. S. Gibbs, member of the Republican campaign committee for this state, has had a conference with Chairman Hanna. At its conclusion Mr. Gibbs said:

"I can say that everything has been arranged satisfactorily between the committee and the national committee. I have never known a presidential campaign in which the members of the New York state Republican committee and the national committee were in such hearty accord."

A Fusion Ticket in Minnesota.

MINNEAPOLIS, Aug. 5.—The Democrats and Populists have fused, dividing up the state ticket and electors. The gold men were ousted from the convention.

A SURPRISING FAILURE.

Brilliant Tube Works Assigns Owing to Internal Dissensions.

WHEELING, Aug. 5.—It was a great surprise in business circles to learn that the Brilliant Tube and Pipe Works company of Brilliant, O., 20 miles above Wheeling, had made an assignment and John S. McMasters was made assignee.

This firm was looked on as being one of the most solid in the valley, as the officers and directors were experienced and wealthy, and they would have made the plant a success if internal dissensions among the stockholders had not arisen as to the policy.

The Pittsburgh stockholders, Messrs. Jos. B. Jackson and Thomas Hackett, and the Wheeling stockholders were at loggerheads over the question whether the tube works should be built and operated for some days to pay off the general creditors, and on Monday some excitement was caused at Brilliant by the citizens seeing a large load of pig-iron and some rolls which were taken out of the mill and placed in a heap labeled: "This is the property of the Tennessee Coal and Iron company."

The miners were taken out after going to work and the mules taken out. The deed of assignment includes the personal and real property and machinery and all privileges of the company.

Preparing to Attack the Trocha.

HAVANA, Aug. 5.—There are indications that an attack is imminent upon the trocha. Bandera is encamped near Mangas, in Pinar del Rio, and Laetret is maintaining a watch upon the trocha near Canas, prepared to second Bandera's attack. From Artemisa answering signal of the red lights are seen at night in the insurgent camps.

The Vermont Gold Democrats.

MONTEPELIER, Vt., Aug. 5.—The state conference of gold standard Democrats has been held here. W. H. Creamer was selected as the Vermont representative at the Indianapolis conference. Jackson, Democratic candidate for governor, was endorsed because a gold man.

Bicyclist Republican Club.

CHICAGO, Aug. 5.—The Wheelmen's National McKinley and Hobart club has been organized at Republican national headquarters. The club starts with a prospective membership in Chicago of fully 10,000, and the movement will be extended all over the country.

Iowa Gold Democrats.

DES MOINES, Aug. 5.—A state conference of Iowa gold standard Democrats has been held here. Resolutions were adopted calling for national and state gold standard conventions and congressional and state committees were provided for.

Bland Nominated for Congress.

JEFFERSON CITY, Mo., Aug. 5.—Richard P. Bland has been nominated for congress by the Democrats of the Eighth district by acclamation. Resolutions endorsing the Chicago platform and nominating and renewing allegiance to Mr. Bland were adopted.

The Weather.

Local thunder storms in northern portion, generally fair in southern portions, light to fresh southerly, shifting to easterly winds, cooler in northern portion, continued warm in southern portion.

THEY LOST MILLIONS.

Moore Bros. in the Hole For Over \$5,000,000.

THE BANKERS PREVENTED A PANIC.

They Came to the Rescue of the Chicago Speculators—Business of Diamond Match and New York Biscuit Companies Not Effected.

CHICAGO, Aug. 5.—The speculative deal in Diamond Match and New York Biscuit stocks which ended with the failure of the Moore Bros., the big props in the deal, and the failure of the greatest speculative scheme ever engineered in Chicago, will not effect the business of the two companies, except to run down the value of the stock some on the market.

It is estimated by those in a position to know that the Moore Bros. have lost between \$4,000,000 and \$5,000,000 in the Diamond Match deal. Some say it has wiped out every cent of their fortunes.

The action of closing the exchange was commended on all sides. It was admitted that if an attempt had been made to carry on trading under present circumstances a panic would surely have followed, in which all stocks would have suffered materially, and Diamond Match might have been run down to 10 or 20. As it is, with the cooperation of the banks and the very rich men who are interested in the Diamond Match deal, no great sacrifice in values is anticipated. There is talk among the members of the exchange, the bankers and the heavy financiers of forming an underwriting syndicate to take the match stock belonging to the pool at 170. The banks will not be losers. While they are carrying large amounts of Diamond Match stock they have loaned on it only up to 160 and \$170 a share. On New York Biscuit from \$75 to \$80 a share has been loaned.

The stocks, it is figured, are intrinsically worth these amounts and a powerful organization most likely will be perfected to protect values about these figures; the market will not be supported, but it will be saved from bear raids. This syndicate would, of course, have to take up some stock, but it is argued that it would not take long to impress investment holders of the true state of the shares and that offerings would cease and stock eventually seek a higher plane of quotations again.

Foreign negotiations of the match company still continue.

Probably the heaviest losers in the collapse, next to the Moores, are the brokers who had been doing business for them on the exchange. Those most effected are Breese & Cummings, Baldwin & Farman, E. L. Brewster & Co. and Wrenn & Co.

SCORCHING IN THE SOUTHWEST.

The Greatest Heat Ever Known in Some Places.

WASHINGTON, Aug. 5.—The weather bureau issues the following special bulletin: Intensely hot and unusually dry weather has prevailed throughout a portion of the southwest, including Western Tennessee, Northern Louisiana, Northern Texas, Arkansas and Oklahoma and Indian Territory during the past ten or twelve days, the temperature reported being in a number of instances higher than any previously recorded by the weather bureau during this season of the year. Maximum temperatures of 100 degrees and over have occurred daily in Arkansas and Oklahoma during the period mentioned and throughout most of the region the temperatures have ranged continuously above 95 degrees.

At Little Rock and the city of Oklahoma maximum temperatures of 104 degrees occurred on August 1, which were respectively 5 and 7 degrees higher than any previous record at these stations during the first ten days of August. During the past twelve days the maximum temperature at Little Rock has been 100 degrees on seven days, 102 degrees on four days and 104 degrees on one day.

LOCAL BREVITIES.

The new kiln at the Union has been fired, and found to be a complete success.

Forty baskets of ware were shipped to Pittsburgh this morning in the market car of the passenger train.

There is an enormous crop of blackberries, and all fear that the wet weather had spoiled them has passed.

The League record shows that Mercer is fifty-fourth in batting, with a record of 286. Padden stands eighty-sixth.

A gang of Italian workmen are engaged on West Market street, in enlarging the sewer under the Horn switch.

A street car left the track at the Lis bon road last night, and five cars were delayed for a time on the Jethro switch.

The board of improvements held a meeting before council met last night, and acted upon the proposed improvements.

"There's one consolation," says a Cincinnati paper. "Ohio river water is healthiest when muddiest. No bacillus can live in it."

The Ben Hur passed up at 4 o'clock this afternoon, with a small cargo of freight. The river is falling. There are no boats due down today.

The Hollow Rock camp meeting will begin on Aug. 20. The principal attraction is Holiness Taylor, who inflicted some of his ideas on people of this city a few years ago.

The new telephone line to Lisbon was completed today, and the system is now provided with another metallic circuit. It will require three weeks for the force to finish the Burgettstown line.

The McKinley club, of East End, decided last night to have a representative at the Bushnell meeting at city hall tonight. The organization numbers 70 men, and the list is constantly growing.

The central committee will meet this evening at city hall with the representatives of other clubs, and arrangements will be made for the Bushnell reception. The parade is expected to be a leading feature of the affair.

The committee appointed by the board of trade to secure electric light contracts, and hold them for a new concern will begin work at once. They delayed the work because of the absence of George Peach, a member of the committee.

One of the longest freight trains ever seen in this part of the world, passed through the city last evening. It was made up of the engine, 117 cars and the cabin car. The cars were empty, and were being taken to Pittsburgh from the river division.

The committee appointed by the McKinley club to investigate the cost of a marching organization held a meeting last night, and instructed the secretary to secure prices of uniforms and lamps from the manufacturers. They expect a big membership.

Improvements are sadly needed at the Trentvale school. At present there are six grades in one room, and the building is in need of repair. In order to allow the teacher to obtain good results from her teaching there must be alterations and improvements.

The new uniforms for Company E arrived here this morning the soldier boys left for camp, and are still lying at the freight depot. They should be removed at once as rats have forced an entrance into the boxes, and may play havoc with the nice new clothes.

A number of glass workers are enjoying their vacation at the mouth of Yellow Creek. They have caught a number of fine fish. Henry Richie is spending his time in Erie, William Flotoo is in Steubenville, and Joseph Kalkof and Michael Sullivan are in Pittsburgh.

A prominent resident of Lisbon, who was in the city a few days ago on business, made the statement that an electric line across the county was only the question of a short time. He said the powers behind the scheme were hard at work, and would eventually be successful.

The Endeavor society of the First U. P. church gave a very enjoyable porch social at the residence of Mr. Frank George, East Market street last night. Music and mirth held sway. Delicious ice cream and cake were served by the young ladies in charge. A nice sum was realized for the association.

Cleveland & Pittsburgh railroad men are extending the line to the end of Beaver valley in Tuscarawas county, and it is said that this is the first step to connect the Panhandle and the Cleveland & Pittsburgh. The move is made necessary by a fight between the Pennsylvania company and Senator Brice.

Six kilnmen of the Laughlin pottery live in East End, and own bicycles. They ride to work every day, and there is great rivalry. Many races have taken place, but the superiority of the best man has never been shown. Archie Seagriff, one of the number, was thrown from his wheel last evening, and received a few scratches.

Charley Danberg, secretary of the library committee, is hard at work endeavoring to produce a bottle which can only be used once. Hundreds of inventors have spent years of time in a vain endeavor to perfect a bottle of this kind, and although there are many models in the patent office at Washington none have reached perfection.

ARTIST SIGN PAINTERS.

Men of Genius Who Have Engaged in Humble Employment.

Commonly there is not a great deal of real artistic value in the signs that distractingly illuminate the streets of our cities and towns. It is, however, interesting to note that there have been in the annals of art not a few instances of noted artists whom stress of misfortune compelled at times in their career to take to this employment—at least temporarily. Some of the old masters did not hesitate to turn their brushes to work of this kind when necessity commanded, and there have been many swinging signs of old taverns throughout Great Britain painted by men of genius whose talents had otherwise failed to fill their pockets with guineas.

Da Maurier once painted signs, and more than one of his contemporaries could if he would tell a tale of similar employment of his brush.

In the history of American art there have been some cases of men who found sign painting more remunerative than work of a higher character. Perhaps the best known was Matthew Pratt of Philadelphia, a talented portrait painter, who, having a family to support, honestly turned his hand in intervals of leisure to the production of tavern signs and banners for political conventions.

On the other hand, there are not a few instances of sign painters abandoning their craft for a higher sphere in art. And of American artists especially a number have begun in this humble line. J. G. Brown at the outset of his career painted the signs of the landscape pictures with which the old New York Broadway stages were decorated. Henry Smith Mount, a brother of the more talented William Sidney Mount, though a sign painter, executed some creditable pictures of still life and became an A. N. A. in 1832. W. S. Mount, first associated with his brother, showed a capacity for a higher order of art. He was one of our early genre painters, devoting himself mainly to depicting the humorous side of American rustic life. Francis A. Silva and Arthur Quartley, the marine painters, now dead, began their careers as sign painters. So did William McGrath, the clever genre painter, who of late has been painting subjects a la Alma Tadema. Worthington Whittridge and William Louis Soutag, both now well known as landscape painters, were painting signs together in Cincinnati a little more than 40 years ago.—Detroit Free Press.

Fault Finders.

THE POLITICAL FIGHT.

Cheering News Received at Both Headquarters.

CHAIRMAN JONES' INTERVIEW.

He says He Was Misquoted in His Statement Regarding Southern Populists. The Great Demand for Literature Continues—Political Happenings.

WASHINGTON, Aug. 5.—The Democratic congressional committee headquarters have become a rendezvous for Democratic leaders until the national headquarters are established. Chairman Jones was at work there early on his mail. Later Chairman Faulkner of the congressional committee was joined by Senator Gorman, Senator Stewart, Ex-Governor Black, president of Democratic clubs; Chairman Chilton of the West Virginia state committee, and Representative Capehart of West Virginia. The talk was on general politics, although Senators Gorman and Faulkner went into secret session on certain items of campaign work. Mr. Faulkner and his associates expressed much satisfaction with the results in Alabama and at Brunswick, Md., where the Democrats carried the town, they assert, on the silver question.

Chairman Chilton of the West Virginia committee reports that silver clubs are springing up throughout the state.

At Republican congressional headquarters half a million pieces of literature have been sent out within 24 hours. Of these a quarter of a million are small "pamphlets" giving McKinley's views on money.

The committee continues to be deluged with requests for literature. One of Acting Chairman Apley's letters from Indiana said: "The silver craze is dying out and we must get 'em with tariff literature."

Women are busy cleaning up Womley's hotel, which adds to the impression that the old hostility will become the national Democratic headquarters. Chairman Jones of the Democratic national committee corrected certain misapprehensions which have arisen from published interviews with him within the last day or two.

"I did not say that Mr. Bryan would accept the Populist nomination," said Mr. Jones. "I have no authority to say that. I did not say that as a general rule the southern Populists were not a creditable class. On the contrary I said that most of them were patriotic men who were working for a cause; that they were Populists because they had believed they could promote their cause best through a new party; and that now they would support Bryan because it was shown that their patriotic objects could be attained only through his election. This is what I said of the southern Populists as a class. As an exception, I spoke of the class who were not creditable. I said there were some who were Populists merely for their personal advancement; some who had become Populists through selfish and not patriotic motives. I spoke of these as the exceptional class who would not support Mr. Bryan. I said that as a rule the Populists in the south would follow the patriotic course and support Bryan, that there were some who for selfish motives would not do so, but would prefer to have McKinley elected."

Chairman Faulkner received a request which he regarded as significant. It came from a leading retail dealer at Huntington, W. Va., asking where he could buy 500 Bryan cabinet photographs, which, he said, were the strongest kind of campaign document. The photographs were to be distributed with purchases.

Representative Pearson of the Asheville (N. C.) district was at the Republican headquarters and said indignantly that he had been aroused among southern Populists by Chairman Jones' interview concerning them.

Senator Jones, chairman of the national Democratic committee, has left the city for New York to consult with the leaders who are making arrangements for the Bryan and Sewall meeting.

BRYAN WRITES TO CANTON.

Placed With the Organization of a Silver Club.

LINCOLN, Aug. 5.—In response to the recent telegram from Canton, O., telling of the organization of the silver forces in the home city of Governor McKinley, Mr. Bryan today sent the following:

Mr. John C. Harmon, Secretary Bryan Silver Club, Canton, O.:
MY DEAR SIR—I am in receipt of your message conveying greetings from the members of your club and beg to assure them of my hearty appreciation of their support.

The fact that those of your citizens who believe the United States is strong enough to have the policy of its own are willing to array themselves against a townsman of high character and great personal worth, indicates the depth of their convictions. Whenever a great issue arises the American people always prove their independence and moral courage, characteristics which, it gratifies me to know that the silver movement in its growth is disregarding party lines.

In regard to the invitation extended to him to speak in Canton, Mr. Bryan said that he did not know he would do so, but that if he did it would be an informal talk from the car platform.

PEACE IN NEW YORK.

The Republican National and State Committees Make Terms.

New York, Aug. 5.—F. S. Gibbs, member of the Republican campaign committee for this state, has had a conference with Chairman Hanna. At its conclusion Mr. Gibbs said: "I can say that everything has been arranged satisfactorily between the state organization and the national committee. I have never known a presidential campaign in which the managers of the New York state Republican committee and the national committee were in such hearty accord."

A Fusion Ticket in Minnesota.

MINNEAPOLIS, Aug. 5.—The Democrats and Populists have fused, dividing the state ticket and electors. The gold men were ousted from the convention.

A SURPRISING FAILURE.

Brilliant Tube Works Assigns Owing to Internal Dissensions.

WHEELING, Aug. 5.—It was a great surprise in business circles to learn that the Brilliant Tube and Pipe Works company of Brilliant, O., 20 miles above Wheeling, had made an assignment and John S. McMasters was made assignee.

This firm was looked on as being one of the most solid in the valley, as the officers and directors were experienced and wealthy, and they would have made the plant a success if internal dissensions among the stockholders had not arisen as to the policy.

The Pittsburgh stockholders, Messrs. Jos. R. Jackson and Thomas Hackett, and the Wheeling stockholders were at loggerheads over the question whether the tube works should be built and other matters. For some days iron and scrap have been shipped away to pay off the general creditors, and on Monday some excitement was caused at Brilliant by the citizens seeing a barge load of pig-iron and some rolls which were taken out of the mill and placed in a heap labeled: "This is the property of the Tennessee Coal and Iron company."

The miners were taken out after going to work and the mules taken out. The deed of assignment includes the personal and real property and machinery and all privileges of the company.

Preparing to Attack the Trocha.

HAVANA, Aug. 5.—There are indications that an attack is imminent upon the trocha. Banders are encamped near Mangas, in Pinar del Rio, and La Cret is maintaining a watch upon the trocha near Canas, prepared to second Bandera's attack. From Artemisa answering signal of the red lights are seen at night in the insurgent camps.

The Vermont Gold Democrats.

MONTPELIER, Vt., Aug. 5.—The state conference of gold standard Democrats has been held here. W. H. Creamer was selected as the Vermont representative at the Indianapolis conference. Jackson, Democratic candidate for governor, was endorsed because a gold man.

Bicyclist Republican Club.

CHICAGO, Aug. 5.—The Wheelmen's National McKinley and Hobart club has been organized at Republican national headquarters. The club starts with a prospective membership in Chicago of 70,000, and the movement will be extended all over the country.

Iowa Gold Democrats.

DES MOINES, Aug. 5.—A state conference of Iowa gold standard Democrats has been held here. Resolutions were adopted calling for national and state gold standard conventions and congressional and state committees were provided for.

Bland Nominated For Congress.

JEFFERSON CITY, Mo., Aug. 5.—Richard P. Bland has been nominated for congress by the Democrats of the Eighth district by acclamation. Resolutions endorsing the Chicago platform and nominees and renewing allegiance to Mr. Bland were adopted.

The Weather.

Local thunder storms in northern portion, generally fair in southern portions, light to fresh southerly, shifting to easterly winds, cooler in northern portion, continued warm in southern portion.

KEEP COOL

And don't get excited. Take your time. If you are about to buy a new suit, don't do so until you have had time to examine the largest and hand-somest and cheapest lot of summer suits in the city. REMEMBER, we do not advertise anything we do not have, or promise anything we cannot fulfill. KEEP IN MIND we have a grand line of nice cool coats and vests, at extremely low prices. But our mission today is to say to you we have too many suits and not enough cash. We want to make a trade. We will give you the best of the bargain. Are you willing? Will you trade? If so, come right along now, for we must reduce our stock. DON'T FORGET we are sole agents for the celebrated IMPERIAL HAT, which we believe to be the best hat for the money in the world. We would like to show you our stock. Come and see us. We will make it pay you.

G. A. R. AT ST. PAUL.

Special Rates via Pennsylvania Lines for National Encampment.

August 30 and 31 and September 1 are the dates upon which low rate round trip tickets to St. Paul will be sold via Pennsylvania lines, the short route through Chicago. Tickets will be good returning until September 15, inclusive, and if deposited with the joint agent at St. Paul on or before September 15, the return limit will be extended to include September 30. The rates for this occasion will be exceptionally low via Pennsylvania lines, the only system of railways over which trains run from Western Pennsylvania, West Virginia, Ohio and Indiana to Chicago union station, the natural gateway from those states to the northwest. Daily trains from Pittsburgh, Columbus, Cincinnati, Indianapolis and Louisville make convenient connection at Chicago with St. Paul trains. Arrangements may be made by Grand Army posts or parties of friends to travel together on special trains or special cars that will go through from starting point to the encampment without change, if the number justifies it. Information on the subject will be cheerfully furnished by representatives of the Pennsylvania lines. The person to address at East Liverpool is Ticket Agent Adam Hill.

ITEMS OF INTEREST

Picked Up in the East End by Our Representative.

Our readers are indirectly indebted to Mr. Elmer Stevenson for the following East End items: In discussing some particulars about the new school board and the East Liverpool potters' union with our representative he incidentally mentioned that he had been under the weather with a sore back, but had got over it, and that if our "scribbler" wanted the minute details of a remarkable case he ought to call on Mrs. Caroline White, of 355 Railroad street. Hither he wended his way and gleaned from that lady the following: "I have taken Doan's Kidney Pills," she says, "and found great relief in their use. My back has ached so long that I have forgotten when I was first troubled. I am now 70 years of age, and had almost given up all hope of ever being helped. I have taken medicines but they did not prove very beneficial; my back would ache just the same in the region of the kidneys and get stiff and lame when sitting long or lying in bed. Sharp twinges of pain and other symptoms convinced me that my kidneys were out of order. Always on the lookout for anything that might bring relief, when I heard Doan's Kidney Pills so highly spoken of I got a box at the W. & W. Pharmacy. After using them for a short time I could plainly notice the good effects they were causing. I continued using them for some time longer and gradually but surely improved. I found Doan's Kidney Pills a splendid remedy and advise others to try them, feeling confident if they do they will have no cause to regret it. I know of a number of people here in the East End that swear by Doan's Kidney Pills."

Doan's Kidney Pills are for sale by all dealers. Price 50 cents per box, or six boxes for \$2.50. Sent by mail on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

ECONOMY OF SPACE.

A Great Power Generating Station Which Covers but Little Ground.

Probably no other kinds of power plants afford better illustrations of the tendency to concentration than some of the modern splendidly equipped electric stations in large cities, where ground area has closely approached the maximum in value, and in which, therefore, economic considerations have dictated the putting of as much generating apparatus into as little space as human ingenuity would permit, with due regard to satisfactory performance. In some of these stations vertical engines and boilers in large units have been installed to the entire exclusion of horizontal designs, and in others, again, the saving in ground space thus secured has been still further augmented by setting engines and boilers in tiers, one above the other, giving a ratio of horsepower per square foot of ground area which a decade ago would have been thought quite beyond the limits of possibility.

In probably no station in the world has this concentration been carried out to greater degree, or to as great a one even, as in that of the Edison Electric Illuminating company in Duane street, in the city of New York. The ground covered by this measures 200 by 74 feet, and within this area provision has been made for nine 2,500 horsepower engines, two of 1,250 horsepower each and three of 600 horsepower, giving a total of very nearly 27,000 horsepower, with a corresponding boiler plant, or only a little less than two horsepower per square foot. It would seem, indeed, as though economy in space could not well be carried much farther.—Cassier's Magazine.

WANTED—THREE THOUSAND WIVES.

A City on Vancouver Island Where Women Are at a Premium.

There is a city in the western part of Canada, close to the Pacific ocean, which is named by all who visit it the most desolate spot upon the face of the earth. Its climate is good, its natural resources excellent, its houses fair, its streets well paved, yet within this town there is an air of forlorn dejection that strikes the most careless traveler that comes within its boundary.

It is on Vancouver island—a sweet, fair spot. And the desolation is caused by one thing—one only—the lack of women and girls.

This particular town is scarcer of the product than others of its locality. There are many towns upon the island, but this one lacks women so sadly that in a recent census of the place it was found nearly 3,000 short. This number included a count of serving women, women to do the work of the house, cook and wash and iron. It also included working girls and women who are not expected to marry. And, of course, it took in the queens of the city, the fair matrons of the homes and the mistresses of the pretty establishments.

Today the doorsteps of these houses yawn vacantly and the vines fluttering over the portals seem to say, "She comes not yet."

The greatest bargain sale of wives ever known took place upon a recently opened domain a few years ago. A frantic call was sent to the cities for 100 women. And poor girls, out of fun and curiosity and willingness to have a home, went out there. The men met them at the station. The girls looked them over shyly. By evening all the girls had found boarding places in the wooden shanties of the "town." And by Sunday the person was kept busy tying the nuptial knots. The prettiest girls and the richest ones got the wealthiest men. A girl with \$50 was an heiress and a man with \$100 a prince. The plain girls took up with poor fellows, with hopes and chances. It was a quick, natural selection.

One very handsome fellow, with blond curls, got a very pretty girl, though neither had a cent. It was a case of love. The rude courtship was carried on in the three evenings between the time the girls arrived and Sunday, and within a week there were nearly 100 small wooden houses going up in the town.

There is no name for this peculiar state of society where women are wanted to make homes and where money is laid down for them and paid to them to queen it over a home. A glaring headline in an English paper once called it "The Barter of Women in America." But among those who see the satisfactory after workings it is merely the good natured consent of the girls to adjust themselves to their country, which is yet new enough not to be as evenly distributed as it will be when the twenty-first century man and woman come in.—St. Louis Globe-Democrat.

Electricity and Vegetation.

As there are a great many references in our scientific exchanges of late to the influence of electricity on germinating seeds and growing plants we will state that such experiments are not new. Researches in that line were carried on away back in the fifties. In 1855 H. F. Baxter of Scotland wrote as follows in The British Botanical Review: "As it may be considered a law in vegetable physiology that all plants have a tendency during the germination of their seeds to develop in two diametrically opposite directions, the root and the stem, the question arose, Might not this direction be influenced or counteracted by submitting the germinating seeds to a current of electricity? Accordingly, a series of experiments were undertaken which were carried out with elaboration of detail. After months of patient experimenting I feel justified in announcing that no definite conclusions were drawn from them as to the relative effect of the electricity, although each series of experiments was varied and multiplied."—St. Louis Republic.

The Suez Canal.

A letter, recently published, from Bonaparte to his friend Paul I, the emperor of Russia, shows that but for the assassination of the latter in 1801 the Suez canal might have been cut many years before 1869. Napoleon wrote that the British threatened to invade Egypt and that their pride and insolence should be rebuked. He added: "The Suez canal, which will unite the Mediterranean and the Indian ocean, is surveyed. It is a work which can be finished within a short time and which would prove to be of incalculable benefit to Russian commerce." It is interesting to note that the diplomatic representative of France in Egypt at that time was M. de Lesseps, the father of Ferdinand de Lesseps, who finally accomplished the great undertaking.

Finger Rings in the British Museum.

The large and varied collection of finger rings includes some splendid specimens of Roman rings and some remarkable early Christian rings. Historically interesting is the gold ring of Ethelwulf, king of Wessex, which was found in a cart rut at Laverstock, Hampshire; as also one found near York which belonged to his daughter Ethelswitha, the sister of Alfred the Great. Nor must we forget the gold signet ring of Mary, queen of Scots. On the face is engraved the royal arms and the supporters of the kingdom of Scotland, with the motto, "In Defens" and her initials, "M. R."

What Happens.

In a written examination on physical geography one of the questions was: "What happens when there is an eclipse of the moon?"

A boy with rather an admirable knack of getting out of a difficulty wrote the following answer:

"A great many people come out to look at it."—London Answers.

ALL RAIL ROUTE TO THE SEA.

To Atlantic City Without Transfer via the Pennsylvania Lines.

By the opening of the Delaware river bridge the Pennsylvania lines have become the only all rail route to Atlantic City and the seashore. Transfer of passengers and baggage at Philadelphia via Market street ferry and Camden is avoided, as seashore trains of parlor cars and coaches depart from Broad street station, at which passengers from the west over the Pennsylvania route arrive in that city. Through trains from Chicago, Indianapolis, Columbus Cincinnati, Pittsburgh and intermediate points on the Pennsylvania lines make convenient connection with the seashore trains. For details apply to nearest Pennsylvania line ticket agent.

Low Rates to Louisville.

Special excursion tickets to Louisville, Ky., will be sold via Pennsylvania Lines, August 9 and 10, account the annual meet of the League of American Wheelmen. The low rates will be open to all. Tickets with return limit including August 18 may be obtained at ticket offices of the Pennsylvania Lines. For details, apply to nearest Pennsylvania line ticket agent.

HARD'S BIG STORE

THIS IS CLEANING UP TIME WITH US.

We are getting shaped up for fall, and are clearing out odds and ends. These odds and ends are not old stuff, but are articles of which we have broken lots or short ends.

They are goods which are as well suited to your purpose as though we had plenty more, so it will pay you to take advantage of the reduced prices we are making.

Odd pieces and Remnants of Mat-
tings are being sold at a tithe of their
real value.

If you want to cover a floor you can do so cheaper and better with Matting than anything else. When you can buy enough for a small room for \$1.50, you shouldn't leave your floor bare.

You can also use to good advantage the small remnants of 2 to 7 yards which are almost given away. Just the stuff for Porch Rugs this rainy weather.

Odd Chairs of Broken Sets.

If you can use one, two, or three chairs, now is the chance to get them. We have a great many 50c, 75c and \$1.00 chairs, broken sets, which you can buy at 30c, 55c and 80c each.

LOUNGES.—We have just received another lot of those cheap Lounges at \$5.25 each.

KEEP COOL

And don't get excited. Take your time. If you are about to buy a new suit, don't do so until you have had time to examine the largest and hand-somest and cheapest lot of summer suits in the city. REMEMBER, we do not advertise anything we do not have, or promise anything we cannot fulfill. KEEP IN MIND we have a grand line of nice cool coats and vests, at extremely low prices. But our mission today is to say to you we have too many suits and not enough cash. We want to make a trade. We will give you the best of the bargain. Are you willing? Will you trade? If so, come right along now, for we must reduce our stock. DON'T FORGET we are sole agents for the celebrated IMPERIAL HAT, which we believe to be the best hat for the money in the world. We would like to show you our stock. Come and see us. We will make it pay you.

G. A. R. AT ST. PAUL.

Special Rates via Pennsylvania Lines for National Encampment.

August 30 and 31 and September 1 are the dates upon which low rate round trip tickets to St. Paul will be sold via Pennsylvania lines, the short route through Chicago. Tickets will be good returning until September 15, inclusive, and if deposited with the joint agent at St. Paul on or before September 15, the return limit will be extended to include September 30. The rates for this occasion will be exceptionally low via Pennsylvania lines, the only system of railways over which trains run from Western Pennsylvania, West Virginia, Ohio and Indiana to Chicago union station, the natural gateway from those states to the northwest. Daily trains from Pittsburgh, Columbus, Cincinnati, Indianapolis and Louisville make convenient connection at Chicago with St. Paul trains. Arrangements may be made by Grand Army posts or parties of friends to travel together on special trains or special car that will go through from starting point to the encampment without change, if the number justifies it. Information on the subject will be cheerfully furnished by representatives of the Pennsylvania lines. The person to address at East Liverpool is Ticket Agent Adam Hill.

Prohibition Convention.

ITEMS OF INTEREST

Picked Up in the East End by Our Representative.

Our readers are indirectly indebted to Mr. Elmer Stevenson for the following East End items: In discussing some particulars about the new school board and the East Liverpool potters' union with our representative he incidentally mentioned that he had been under the weather with a sore back, but had got over it, and that if our "scribe" wanted the minute details of a remarkable case he ought to call on Mrs. Caroline White, of 355 Railroad street. Hither he wended his way and gleaned from that lady the following: "I have taken Doan's Kidney Pills," she says, "and found great relief in their use. My back has ached so long that I have forgotten when I was first troubled. I am now 70 years of age, and had almost given up all hope of ever being helped. I have taken medicines but they did not prove very beneficial; my back would ache just the same in the region of the kidneys and get stiff and lame when sitting long or lying in bed. Sharp twinges of pain and other symptoms convinced me that my kidneys were out of order. Always on the lookout for anything that might bring relief, when I heard Doan's Kidney Pills so highly spoken of I got a box at the W. & W. Pharmacy. After using them for a short time I could plainly notice the good effects they were causing. I continued using them for some time longer and gradually but surely improved. I found Doan's Kidney Pills a splendid remedy and advise others to try them, feeling confident if they do they will have no cause to regret it. I know of a number of people here in the East End that swear by Doan's Kidney Pills."

Doan's Kidney Pills are for sale by all dealers. Price 50 cents per box, or six boxes for \$2.50. Sent by mail on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

ECONOMY OF SPACE.

A Great Power Generating Station Which Covers but Little Ground.

Probably no other kinds of power plants afford better illustrations of the tendency to concentration than some of the modern splendidly equipped electric stations in large cities, where ground area has closely approached the maximum in value, and in which, therefore, economic considerations have dictated the putting of as much generating apparatus into as little space as human ingenuity would permit, with due regard to satisfactory performance. In some of these stations vertical engines and boilers in large units have been installed to the entire exclusion of horizontal designs, and in others, again, the saving in ground space thus secured has been still further augmented by setting engines and boilers in tiers, one above the other, giving a ratio of horsepower per square foot of ground area which a decade ago would have been thought quite beyond the limits of possibility.

In probably no station in the world has this concentration been carried out to greater degree, or to as great an extent, as in that of the Edison Electric Illuminating company in Duane street, in the city of New York. The ground covered by this measures 200 by 74 feet, and within this area provision has been made for nine 2,500 horsepower engines, two of 1,350 horsepower each and three of 600 horsepower, giving a total of very nearly 27,000 horsepower, with a corresponding boiler plant, or only a little less than two horsepower per square foot. It would seem, indeed, as though economy in space could not well be carried much farther.—Cassier's Magazine.

WANTED—THREE THOUSAND WIVES.

A City on Vancouver Island Where Women Are at a Premium.

There is a city in the western part of Canada, close to the Pacific ocean, which is named by all who visit it the most desolate spot upon the face of the earth. Its climate is good, its natural resources excellent, its houses fair, its streets well paved, yet within this town there is an air of forlorn dejection that strikes the most careless traveler that comes within its boundary.

It is on Vancouver island—a sweet, fair spot. And the desolation is caused by one thing—one only—the lack of women and girls.

This particular town is scarcer of the product than others of its locality. There are many towns upon the island, but this one lacks women so sadly that in a recent census of the place it was found nearly 3,000 short. This number included a count of serving women, women to do the work of the house, cook and wash and iron. It also included working girls and women who are not expected to marry. And, of course, it took in the queens of the city, the fair matrons of the homes and the mistresses of the pretty establishments.

Today the doorsteps of these houses yawn vacantly and the vines fluttering over the portals seem to say, "She comes not yet."

The greatest bargain sale of wives ever known took place upon a recently opened domain a few years ago. A frantic call was sent to the cities for 100 women. And poor girls, out of fun and curiosity and willingness to have a home, went out there. The men met them at the station. The girls looked them over shyly. By evening all the girls had found boarding places in the wooden shanties of the "town." And by Sunday the parson was kept busy tying the nuptial knots. The prettiest girls and the richest ones got the wealthiest men. A girl with \$50 was an heiress and a man with \$100 a prince. The plain girls took up with poor fellows, with hopes and chances. It was a quick, natural selection.

One very handsome fellow, with blond curls, got a very pretty girl, though neither had a cent. It was a case of beauty. The rude courtship was carried on in the three evenings between the time the girls arrived and Sunday, and within a week there were nearly 100 small wooden houses going up in the town.

There is no name for this peculiar state of society where women are wanted to make homes and where money is laid down for them and paid to them to queen it over a home. A glaring headline in an English paper once called it "The Barter of Women in America." But among those who see the satisfactory after workings it is merely the good natured consent of the girls to adjust themselves to their country, which is yet new enough not to be as evenly distributed as it will be when the twenty-first century man and woman come in.—St. Louis Globe-Democrat.

Electricity and Vegetation.

As there are a great many references in our scientific exchanges of late to the influence of electricity on germinating seeds and growing plants we will state that such experiments are not new. Researches in that line were carried on away back in the fifties. In 1858 H. F. Baxter of Scotland wrote as follows in The British Botanical Review: "As it may be considered a law in vegetable physiology that all plants have a tendency during the germination of their seeds to develop in two diametrically opposite directions, the root and the stem, the question arose, Might not this direction be influenced or counteracted by submitting the germinating seeds to a current of electricity? Accordingly, a series of experiments were undertaken which were carried out with elaboration of detail. After months of patient experimenting I feel justified in announcing that no definite conclusions were drawn from them as to the relative effect of the electricity, although each series of experiments was varied and multiplied."—St. Louis Republic.

The Suez Canal.

A letter, recently published, from Bonaparte to his friend Paul I, the emperor of Russia, shows that for the assassination of the latter in 1801 the Suez canal might have been cut many years before 1869. Napoleon wrote that the British threatened to invade Egypt and that their pride and insolence should be rebuked. He added: "The Suez canal, which will unite the Mediterranean and the Indian ocean, is surveyed. It is a work which can be finished within a short time and which would prove to be of incalculable benefit to Russian commerce." It is interesting to note that the diplomatic representative of France in Egypt at that time was M. de Lesseps, the father of Ferdinand de Lesseps, who finally accomplished the great undertaking.

Finger Rings in the British Museum.

The large and varied collection of finger rings includes some splendid specimens of Roman rings and some remarkable early Christian rings. Historically interesting is the gold ring of Ethelwulf, king of Wessex, which was found in a cart rut at Laverstock, Hampshire; as also one found near York which belonged to his daughter Ethelswitha, the sister of Alfred the Great. Nor must we forget the gold signet ring of Mary, queen of Scots. On the face is engraved the royal arms and the supporters of the kingdom of Scotland, with the motto, "In Defens" and her initials, "M. R."

What Happens.

In a written examination on physical geography one of the questions was: "What happens when there is an eclipse of the moon?"

A boy with rather an admirable knack of getting out of a difficulty wrote the following answer: "A great many people come out to look at it."—London Answers.

ALL RAIL ROUTE TO THE SEA.

To Atlantic City Without Transfer via the Pennsylvania Lines.

By the opening of the Delaware river bridge the Pennsylvania lines have become the only all rail route to Atlantic City and the seashore. Transfer of passengers and baggage at Philadelphia via Market street ferry and Camden is avoided, as seashore trains of parlor cars and coaches depart from Broad street station, at which passengers from the west over the Pennsylvania route arrive in that city. Through trains from Chicago, Indianapolis, Columbus, Cincinnati, Pittsburgh and intermediate points on the Pennsylvania lines make convenient connection with the seashore trains. For details apply to nearest Pennsylvania line ticket agent.

Low Rates to Louisville.

Special excursion tickets to Louisville, Ky., will be sold via Pennsylvania Lines, August 9 and 10, account the annual meet of the League of American Wheelmen. The low rates will be open to all. Tickets with return limit including August 18 may be obtained at ticket offices of the Pennsylvania Lines. For details, apply to nearest Pennsylvania line ticket agent.
